Permit: MHRB # 2017-0015

On 1/8/2018, the Mendocino Historical Review Board granted Marjorie DeAtley and Ruth Schnell this permit to restore a historic barn (currently having residential and commercial occupancies); repair east-facing shed roof; and, on the building's south elevation, construct stairs, additional balcony area, and replace an existing garage door. The project is located at 45021 Little Lake Street, Mendocino Area (APN 119-160-29).

STANDARD CONDITIONS:

1. This action shall become final and effective on the 11th day following the decision unless an appeal is filed pursuant to Section 20.760.072 of the Mendocino County Code. The permit shall expire and become null and void at the expiration of two years after the effective date except where construction and or use of the property in reliance on such permit has been completed prior to its expiration.
2. The application along with supplemental exhibits and related material shall be considered elements of this permit, and compliance therewith is mandatory.
3. This permit shall be subject to the securing of all necessary permits for the proposed development from County, State and Federal agencies having jurisdiction. The applicant shall secure all required building permits for the proposed project as required by the Building Inspection Division.
4. This permit shall be subject to revocation or modification upon a finding of any one (1) or more of the following:
 - a. That such permit was obtained or extended by fraud.
 - b. That one or more of the conditions upon which such permit was granted have been violated.

Prior to this MHRB Permit's expiration (if no Building Permit is obtained) and at the request of the property owner, PBS will furnish, following a site inspection of completed work, a functionally equivalent document demonstrating that the requirements of MHRB Permit 2017-0014 have been satisfied.

Dear Ms. Cherry,

Upon reflection and further examination of the building we would like to submit a correction to our application. Please see attached drawings:

- Drawing 1. Existing Building East Elevation showing existing conditions.
- Drawing 2. Proposed as submitted.
- Drawing 3. Revision requested.

We believe the revision respects the integrity of the building by keeping its existing useable volumes in place. The roof line of the proposed East side remains as proposed.

Thank you,

Thomas L. Thomson, Architect.
