SOURCE: State of California Earthquake Fault Zone maps, effective July 1, 1983. This map does not show all faults that have the potential for surface fault rupture, either within the special studies zones or outside their boundaries. Fault information on this map is not sufficient to serve as substitute for the geologic site investigations required under Chapter 7.5 of Division 2 of the California Public Resources Code.

Coordinate System: NAD 83, Calif. State Plane Zone II
 Projection: Lambert Conformal Conic
 This map is intended as a visual display of county information and is not a survey product. Do not make a business decision based on this map without first consulting the appropriate agency. Reasonable effort has been made to ensure the accuracy of the map and data provided, however errors and omissions may still exist.
