

MENDOCINO COUNTY POLICY #15	BOARD OF SUPERVISORS AGENDA CONSENT ITEMS
ADOPTED: January 6, 1987	ADOPTED BY: Minute Order

A. As many items as possible are to be placed on the Board of Supervisor's consent calendar by all departments with matters for the Board. These consent items are to be matters which are non-controversial and have the approval of all involved parties. They are to include resolutions and agreements which do not require ordinance action and meet the consensus guidelines.

Items for action should include items which are not agreed to by all of the involved parties or require policy deliberation prior to final action.

B. When matters are unclear between action and consent, the department approach should be to favor consent since the Board members can and will remove consent items if any questions arise prior to agenda action.
