

MENDOCINO COUNTY POLICY #31	STANDARD COPYING FEES
ADOPTED: October 7, 1997	ADOPTED BY: Resolution #97-178

The Board of Supervisors has determined that it is in the public interest that copying fees be standardized for all County departments, except for those departments, including but not limited to the Clerk-Recorder, Consolidated Courts, and Sheriff Departments, whose copying fees are established by separate statutory authority, and except for certain oversized documents.

1. Legal size (8 ½" x 14") or smaller: \$0.10 per impression for the first copy, and all additional copies of the same original document;
2. Ledger size (11" x 17"): \$0.20 per impression for the first copy, and all additional copies of the same original document; and
3. Copying fees for oversized (larger than 11" x 17") documents, including maps among others, shall be based on the actual cost of copying and the actual cost of the time spent by the County employee in copying the document.
