|------------------|----------------------------|----------------------|----------------------------|------------------------------|
|------------------|----------------------------|----------------------|----------------------------|------------------------------|

Note: The realignment legislation changed the good time/work time custody credits that are "earned" by prisoners against the above sentences. By law each defendant is only required to serve one-half of the commitment noted, or, put another way, 50% of the sentence imposed.

The **post supervision** column indicates whether a sentence has been "split," meaning the defendant's overall sentence is split by order of the Court between time incarcerated in the county jail and time on mandatory supervision upon release. If the defendant's sentence is not split, then he or she will not have any probation or parole-like supervision upon completion of their full sentence.
