Re: Case # U\_2017-0039

Attention: Commission Staff

I am writing to express my displeasure and concerns about having cannabis cultivation in our neighborhood. In this area, we all use wells. I know that growing cannabis requires thousands of gallons of water per season. It is not unusual for our well to have only 2-3 feet of water left by the time the rain starts. Some of our neighbors actually run out of water altogether.

I also realize there is more to cannabis cultivation than just growing plants. I feel this will change the atmosphere of our area. One thing I do know, it will definitely change the smell.

In our neighborhood, we have small children, domestic animals, and a lot of wildlife. I don't want that to be disrupted in any way.

Thank you for your time and consideration in this matter.

Sincerely,

A handwritten signature in cursive script that reads "Fred + Sharon Franco".
