Re: Case #CDP 2017-0045.44640 Larkin Road

I am writing to you on behalf of my friend and co-worker, Tigerlily Jones. She is a truly good and generous person and an asset to the community. Tigerlily has had major health problems and expenses over this past year and has only recently been able to return to work part time. She requires a caregiver residing in the travel trailer she means to use as a family care unit. She also has a garage conversion living space she needs you to approve. These two living arrangements will provide much needed affordable housing for two tenants as wells some modest income so that Tigerlily can begin to recover financially.

I believe the county adopted a measure or legislation just a few years ago to address the housing crisis here on the coast.

Well, here is your chance to contribute to our community. Please don't delay this process any longer. She has been waiting over a year now.

Sincerely,

Daniel R Barrett
