Dear Julianna,

As a coastal Mendocino County resident, I urge you to implement the plans for the creation of Rotary Park on the corners of Main and Lansing streets in the Village of Mendocino. I have viewed the development of Rotary Park over the last few years and would urge the County and MHRB to complete the legal work necessary to complete the development of Rotary Park for increased use by citizens and visitors that will be able to use Rotary Park's facilities.

Thank you for any actions you can take in the development of Rotary Park.

Personal Comment (not required)

I love the new park - it has so much potential.

The Park is a gathering place that will help
attract visitors, and enhance the environment.
It is consistent with the history of
the town.

Definitely approve further development of the
Park. Perhaps a gazebo, low fence to protect
children from cars, desperately walk way
& small utility shed.

Personal Comment (not required)

I have so enjoyed driving by and seeing family and friends sitting and enjoying the view, having picnics and playing their children. The park is a perfect use for this land.
