Hi Mark,

I received a call from a neighbor concerned about a commercial cannabis permit in the Simpson Lane exclusion zone. The number he gave me was U2019-0002, a number which fails to return anything on the county website. It is possible that I am mis-reading the number.

However he suggested that a permit was in the works for expanded commercial cultivation in the neighborhood. I would like to state my opposition to this. I thought the neighborhood voted to limit future expansion and I would like that vote honored.

I am also a little concerned that I searched on the two addresses that I am aware of and raised no outstanding permit requests.

Regards,

Brian Leeland
