Re: Response to the Grand Jury Report Dated May 1, 2013

FINDINGS: We agree with all findings.

RECOMMENDATIONS: All recommendations have been implemented.

The Leggett School District Board of Trustees wishes to acknowledge and express our sincere appreciation for the Grand Jury's time, continued effort, and concern they have put forth to ensure the success of our district.

As set forth in the Grand Jury Report, our district faces several challenges. We are currently working closely with the Mendocino County Office of Education, both to help balance our administration's lack of experience, and to take advantage of the resources MCOE offers regarding technical support and education.

We continue to recruit qualified board members and inform the community of our financial status at each board meeting.

Respectfully submitted,
