RE: Support for City of Ukiah proposed modifications to the Draft Ukiah Municipal Airport Land Use Compatibility Plan

Chair Crane and Commissioners,

I appreciate the extensive effort by all parties that have gone into preparing the Draft Plan before you today. It is unfortunate that as we are on the brink of adoption there is not complete agreement on the technical and legal details of how we move forward with adoption of this Draft Plan in a way that advances the shared goals of the City, the County of Mendocino, the Commission and the community at large while also preserving the possibility for a future runway extension. First District Supervisor Carre Brown and myself have both reviewed today's agenda materials and fully support the City of Ukiah recommended modifications as stated in their letter dated November 19, 2020.

We encourage you to move forward today.

Thank you.

John McCowen
