Planning & Building Services

Dear MHRB Board Members,

I am writing to offer my support for the project at 43320 Calpella Street, and appreciation towards all the applicant has been through. Overall the building shape is harmonious with the environment. The dormers are common in buildings and appear to fit with the neighborhood.

This being said, in my opinion I do not think the sliding windows fit in with the character of the neighborhood. The predominant shape of windows in the Mendocino village is double hung. Also, the French door with the solid glass panes seem very modern.

Overall I support the project, with minor revisions.

Thank you,

Deirdre Lamb
