I. Quality Assessment and Performance Improvement Program

The Mendocino County Behavioral Health and Recovery Services (MCBHRS) Quality Assessment and Performance Improvement (QAPI) Program is responsible for providing support services to the Mental Health Plan (MHP), Substance Use Disorder Treatment (SUDT) program, beneficiaries, and family members. The QAPI Program is accountable to the Behavioral Health Director, Behavioral Health Advisory Board, and Board of Supervisors.

The goal of the QAPI Program is to improve access to and delivery of mental health and substance abuse treatment services, while assuring that services are community based, beneficiary directed age appropriate, culturally competent, and process and outcome focused. The QAPI Program monitors, evaluates, and works to improve client access to services and the quality of services. The program coordinates with performance monitoring activities throughout the MHP and SUDT, including, but not limited to, beneficiary and system outcomes, utilization management, clinical records review, monitoring of beneficiary and provider satisfaction, and resolution of beneficiary and provider grievances/appeals.

The Quality Assessment and Performance Improvement Program supports the strategic initiatives and the Goals and Objectives of MCBHRS. The goals and objectives are analyzed and evaluated to identify the effectiveness of programs and areas for improvement. The MCBHRS leadership, MHP Providers, and quality improvement committee formulate these Goals and Objectives and evaluate their effectiveness.

The Quality Improvement Work Plan ensures the opportunity for input and active involvement of beneficiaries, family members, MHP providers, Substance Use Disorder staff, and other interested stakeholders in the Quality Improvement (QAPI) Program.

The Administrative Service Organization (ASO) arranges for the provision of specialty mental health services on behalf of Mendocino County. ASO contracts with providers to provide specialty mental health services to beneficiaries. Services are segregated as follows: ages 0-24 for children, youth, and young adults; and 25 and older for adults. MCBHRS provides substance use disorder treatment, LPS conservatorship placement and oversight, AB109, Assisted Outpatient Treatment, Mobile Outreach and Prevention, Jail Discharge Planning, and CalWORKS services.

II. Quality Improvement Committees/Groups

The QAPI Program's principle workgroup is the Quality Improvement Committee (QIC). These subcommittees include Quality Management/Quality Improvement, Utilization Management, a Clinical Performance Improvement Project, and a Non-Clinical Performance Improvement Project.

Additional quality management committees and workgroups include the Cultural Diversity Committee, Behavioral Health Leadership Team, Behavioral Health Executive Team, and the Compliance Committee. These entities inform and provide feedback to the QIC.
