Dear Julia and Matt,

We are writing this letter in support of moving forward with the proposed Kirkman house on the Navarro bluffs.

The plans suggest a house that will look quite beautiful in that setting and we believe its presence will not, in any way, detract from the peaceful, elemental walks on the park trails below it. We never look up at the other homes when we are heading out to the ocean there, and we are never bothered to see signs of civilization on my way back. After all, that's what people do: build attractive homes in scenic locations.

In short, as residents of Albion, we believe the Kirkman's should be allowed to proceed with their project as articulated in their plans.

Thank you,  
Allan Pollack
