This presentation was provided to the BOS, and the BOS directed the agencies to work together on how to continue CTT trainings in Mendocino County. There was a recommendation that Measure B pay for those trainings going forward.  The BOS also asked staff to do feasibility study on Whitmore Lane as a possible PHF. BHRS is planning on making some changes to the ASO contract that will make fiscal cost report audits easier to complete.  The majority of the ASO contract dollars goes to the contracted providers (sub-contractors).  There will be a contract with the ASO individually solely for their services, and will contract jointly with the ASO with local service providers. This will allow for more transparency so community can see where the money is going and what services are provided.  Mobile outreach response: BHRS will be hiring 3 teams (2 with the Sheriff's office and 1 with UPD). One person has already been hired, will be training with Crisis and the Sheriff's office. Redwood Quality Management Company (RQMC) is the Administrative Service Organization for Mendocino County- providing management and oversight of specialty mental health, community service and support, and prevention and early intervention services. RQMC and its contracted providers (Manzanita, MCAVHN, Hospitality, MCYP, RCS, and Tapestry) use a single Electronic Health Record (EHR), EXYM to pull the data used in this report. The data is reported by age range, along with a total for the system of care (either youth or adult) as well as the overall RQMC total. This will assist in interpreting how different demographics are accessing service, as well as assist in providing an overall picture of access and service by county contract (youth, young adults, and adults). Our goal is to provide the Behavioral Health Advisory Board with meaningful data that will aid in your decision making and advocacy efforts while still providing a snapshot of the overall systems of care.
