Subject: 34350 Pacific Reefs, CDP-2020-0024

Dear Ms. Waldman,

I hope you are doing well. By this correspondence, I am supplementing my earlier emails to you. As we stated previously, we adamantly object to the building site that is in the CDP. We have reviewed the documents in the file and saw that there is an Alternative B that was submitted by EISHA that appears not to be objectionable. In any event, I would respectfully request that storey poles be installed so that the true visual impact can be seen before any decisions are made. I would further request that we are put on all communications regarding the application process.

Thank you so much.

Cynthia Buechler
