ITEM TYPE: Noticed Public Hearing

TIME ALLOCATED FOR ITEM: 30 min

AGENDA TITLE:

Noticed Public Hearing – Discussion and Possible Action Including Adoption of a Resolution Approving the Capital Fire Facilities and Equipment Plan and Adopting and Implementing Fire Protection Mitigation Fees for the Little Lake Fire Protection District Pursuant to Mendocino County Code Chapter 5.36

RECOMMENDED ACTION/MOTION:

Adopt Resolution approving the Capital Fire Facilities and Equipment Plan and adopting and implementing Fire Protection Mitigation Fees for the Little Lake Fire Protection District Pursuant to Mendocino County Code Chapter 5.36, and authorize Chair to sign same.

PREVIOUS BOARD/BOARD COMMITTEE ACTIONS:

Adoption of Ordinance No. 4175 adding Chapter 5.36 – Fire Protection Mitigation Fee to the Mendocino County Code.

SUMMARY OF REQUEST:

The Little Lake Fire Protection District (“District”) has taken the necessary steps to adopt a fire protection mitigation fee pursuant to the Mitigation Fee Act (Government Code section 66000 *et seq.*) and Mendocino County Code Chapter 5.36. On February 9, 2021, the District adopted a resolution approving a Nexus Study for a Fire Impact Fee and adopting a Capital Fire Facilities and Equipment Plan (“Plan”) and requesting the Board of Supervisors to implement fire protection mitigation fees for the District, and then forwarded that resolution to the County. In response, County staff have noticed this meeting pursuant to the Mitigation Fee Act and Mendocino County Code Chapter 5.36.

Attached as part of this agenda item is a resolution prepared for the Board’s consideration, which includes the District’s resolution, Nexus Study and Plan as an exhibit. District staff will be available for any questions of the Board.

ALTERNATIVE ACTION/MOTION:

Not adopt resolution, provide direction to staff.

SUPERVISORIAL DISTRICT: DISTRICT 3

RESOLUTION NO.

RESOLUTION OF THE MENDOCINO COUNTY BOARD OF SUPERVISORS APPROVING THE CAPITAL FIRE FACILITIES AND EQUIPMENT PLAN AND ADOPTING AND IMPLEMENTING FIRE PROTECTION MITIGATION FEES FOR THE LITTLE LAKE FIRE PROTECTION DISTRICT PURSUANT TO MENDOCINO COUNTY CODE CHAPTER 5.36

WHEREAS, on October 17, 2006, the Board of Supervisors adopted Ordinance No. 4175, relating to fire protection mitigation fees, which was later codified as Mendocino County Code Chapter 5.36; and

WHEREAS, pursuant to Mendocino County Code Chapter 5.36, local fire protection districts may seek approval by the Board of Supervisors for the assessment and implementation of fire protection mitigation fees associated with new development within the boundaries of said districts; and

WHEREAS, the Little Lake Fire Protection District has adopted a resolution and a capital fire facilities and equipment plan pursuant to section 5.36.040 of the Mendocino County Code, and presented the same to the Clerk of the Board of Supervisors; and

WHEREAS, upon the implementation of said fire mitigation fee, the Little Lake Fire Protection District will comply with the provisions of Mendocino County Code Chapter 5.36.

NOW, THEREFORE, BE IT RESOLVED, that the Mendocino County Board of Supervisors hereby approves the resolution and capital fire facilities and equipment plan, for the area within the district boundaries of the Little Lake Fire Protection District, in the form attached to this Resolution as Exhibit A, finding that the documents meet the requirements of Chapter 5.36 of the Mendocino County Code and Government Code section 66000 *et seq.*

BE IT FURTHER RESOLVED that the Mendocino County Board of Supervisors hereby approves a fire mitigation fee for, and to be collected by, the Little Lake Fire Protection District, with fees as specified in Little Lake Fire Protection District Resolution No. 2021-2 on applicants for development projects within the district boundaries of the Little Lake Fire Protection District, to be effective in 60 days (pursuant to Government Code section 66017) from the date of adoption of this resolution.

BE IT FURTHER RESOLVED that the Little Lake Fire Protection District is hereby directed to notify the County building official of the effective date of its mitigation fee.

BE IT FURTHER RESOLVED that by March 31 of each year following the year of the original adoption of a resolution and approval by the Board of Supervisors of fire mitigation fees under Mendocino County Code Chapter 5.36, the Little Lake Fire Protection District shall submit a copy of a new resolution adopted by the District's governing body making the findings required by section 5.36.040(A) of said Chapter and identifying the fire mitigation fees requested by the fire district. If the resolution proposes to increase the fire mitigation fees, the resolution shall only become effective if approved by the Board of Supervisors in the manner set forth in section 5.36.40(D) of said Chapter 5.36. A revision of fire mitigation fees shall become effective the following July 1.

The foregoing Resolution introduced by Supervisor _____, seconded by Supervisor _____

, and carried this day of , 2021, by the following vote:

AYES:
NOES:
ABSENT:

WHEREUPON, the Chair declared said Resolution adopted and SO ORDERED.

ATTEST: CARMEL J. ANGELO
 Clerk of the Board

DAN GJERDE, Chair
Mendocino County Board of Supervisors

Deputy

I hereby certify that according to the provisions of Government Code Section 25103, delivery of this document has been made.

APPROVED AS TO FORM:
CHRISTIAN M. CURTIS
County Counsel

**RESOLUTION NO. 2021-2
OF THE BOARD OF DIRECTORS
OF THE LITTLE LAKE FIRE PROTECTION DISTRICT
February 9, 2021**

**RESOLUTION APPROVING THE LITTLE LAKE FIRE PROTECTION
DISTRICT FIRE IMPACT FEE NEXUS STUDY AND REQUESTING THE
MENDOCINO COUNTY OF BOARD OF SUPERVISORS ADOPT AND
IMPLEMENT THE PROPOSED FIRE IMPACT FEE PROGRAM ON
BEHALF OF THE DISTRICT**

WHEREAS, the Board of Directors of the Little Lake Fire Protection District ("District"), recognizes that continuing development within the District places added responsibilities and cost to the District; and

WHEREAS, AB 1600 was adopted and codified in California Government Code Section 66000 allowing the establishing, increasing or imposing of a development fee as a condition of approval where the purpose and use of the fee were identified, and reasonable relationship to the development project was demonstrated; and

WHEREAS, the District Board of Directors ("District Board") desires to establish a new Fire Impact Fee program ("Fees or Fee Program") for the District to fund fire protection facilities, apparatus and equipment necessary to mitigate the impacts caused by new development with the District's Sphere of Influence; and

WHEREAS, the County of Mendocino ("County") has, by Ordinance No. 4175, established and implemented a procedure for the adoption of such Fees and to ensure the imposition and collection of these Fees in connection with the issuance of building permits. The Fees are to be allocated to the District for the acquisition of capital facilities and equipment in order to ensure the provision of the capital facilities and equipment necessary to maintain current levels of fire protection services that are required as the result of new development projects within the boundaries of the District's Sphere of Influence pursuant to County Code Chapter 5.36; and

WHEREAS, the District Board has received and considered the District's Fire Impact Fee Nexus Study prepared by SCI Consulting Group dated May 2020 Final Report ("Nexus Study") that provides the required information to establish a new Fire Impact Fee program.

NOW, THEREFORE, IT IS HEREBY RESOLVED that:

- 1) The District Board hereby receives and approves the Nexus Study.

- 2) Prior to the adoption of this Resolution, the District conducted a public hearing at which oral and written presentations were made, as part of the District Board's July 14, 2020 meeting. Notice of the time and place of the meeting, including a general explanation of the matter to be considered, has been published twice in the local newspaper. Additionally, at least 10 days prior to the meeting the District made available to the public, data indicating the amount of the cost, or estimated cost, required to provide the service for which the fee or service charge is to be adjusted pursuant to the Resolution by way of such public meeting, the District received the Nexus Study attached as Exhibit A, which formed the basis for the action taken pursuant to this Resolution.
- 3) After considering the Nexus Study, this Resolution, and after considering the testimony received at this public hearing, the District, hereby makes the following findings:
 - a) The District does not have existing fire protection facilities and equipment that could provide an adequate level of services to new development within the District's Sphere of Influence; and
 - b) The District does not have sufficient funds available to construct additional facilities and purchase additional equipment from fund balances, capital facility funds, property tax sources, fire suppression assessments, or any other available sources; and
 - c) The lack of additional fire protection facilities and equipment to service new development projects would create a situation that is dangerous to the public health and safety if fire protection mitigation fees are not levied within the District; and
 - d) The Fee Program and the Fees proposed in the Nexus Study and approved pursuant to this Resolution are for the purposes of funding the cost of fire protection and emergency response facilities, apparatus, and equipment attributable to new residential and nonresidential development in the District's service area; and
 - e) The Fee proposed in the Nexus Study and approved pursuant to this Resolution will be used to expand the District's facilities and equipment, and replace and expand the District's apparatus and vehicles to serve new development; and
 - f) The uses of the Fees proposed in the Nexus Study and approved pursuant to this Resolution are reasonably related to the types of development projects on which the fees are imposed in that fee revenue from the development projects will be used to expand the District's facilities and equipment, and replace and expand the District's apparatus and vehicles to meet the additional demand generated by the new residents and employees and new structural area created by the development projects; and

- g) The Fees proposed in the Nexus Study, and approved pursuant to this Resolution, bear a reasonable relationship to the need for fire protection and emergency response facilities, apparatus, and equipment in that each development project will create additional need for the District's fire protection and emergency response services and a corresponding need for new or expanded facilities, apparatus, and equipment. The Fees will be imposed on different types of development projects in proportion to the additional service population generated and structural area created by new development projects; and
- h) The Nexus Study demonstrates that there is a reasonable relationship between the amount of the Fee and the cost of the fire protection facilities, apparatus, and equipment attributable to the development on which the Fee is imposed in that the costs are based upon the level of existing development served by the District's existing fire protection facilities and applied proportionately land use categories in proportion to the need they create for expanded fire facilities, apparatus, and equipment.
- 4) The District finds pursuant to the California Environmental Quality Act ("CEQA"), this action is not a "project" because the Resolution provides a mechanism for funding fire protection and emergency response facilities, apparatus, and equipment but does not involve a commitment to any specific project for such purposes that may result in a potentially significant impact on the environment. (CEQA Guidelines § 15378.)
- 5) The District does hereby approve the following Fees on new development which shall be collected upon issuance of a building permit:

<u>Land Use</u>	<u>Fire Impact Fees</u>
<u>Residential Development</u>	
Single Family Housing	\$0.98
Multi-Family Housing	\$1.06
Mobile Home	\$0.94
Accessory Dwelling Unit	See Note
<u>Nonresidential Development</u>	
Retail / Commercial	\$0.99
Office	\$1.35
Industrial	\$1.06
Agriculture	\$0.60
Warehouse / Distribution	\$0.65

Note: Pursuant to Govt. Code § 65852.2(f)(3)(A), the fire impact fee for an accessory dwelling unit shall imposed proportionately in

relation to the square footage of the primary dwelling unit.
Accessory dwelling units less than 750 square feet of living area
are exempt.

- 6) The Fees imposed under the County Ordinance 4175 shall only be used to expand the availability of capital facilities and equipment to provide fire services to new development projects; and
- 7) The District shall place all funds collected under Ordinance 4175 and all interest subsequently accruing on these funds in a separate budget accounting category, known as "Little Lake Fire Protection District Fire Impact Fee", only for those purposes of providing capital improvements and equipment to serve new development projects; and
- 8) The District shall spend funds from the " Little Lake Fire Protection District Fire Impact Fee" budget accounting category only for those purposes of providing capital improvements and equipment to service new development projects; and
- 9) The District shall submit an annual report no later than October 31st of each year to the Clerk of the Board of Supervisors. The report shall include, but not be limited to: the balance in the account at the end of the prior fiscal year, the Fees received, the amount and type of expenditures made and the ending balance in the fund. In addition, the annual report shall specify the actions the District's plans to take to mitigate the facility and equipment needs caused by the new development projects in a capital fire facilities and equipment plan adopted at a notice public hearing. The District shall make available, upon request by the Clerk of the Board, a copy of the annual audited report; and
- 10) The District shall make its records that justify the basis for the Fee amounts available to the public upon request; and
- 11) The District shall agree to indemnify and defend the County and its officers, agents, and employees from any claim, action, or proceeding that arises from or is in any way related to the Fees; and
- 12) For the fifth fiscal year following the first deposit into the " Little Lake Fire Protection District Fire Impact Fee" account and every five (5) years thereafter, the District shall make all of the following findings with respect to any cash portion of the fees remaining unexpended ore uncommitted in the account:
 - (a) Identify the purpose to which the fee is to be put;
 - (b) Demonstrate a reasonable relationship between the fee and the purpose for which it was charged;
 - (c) Identify all sources and amounts of funding anticipated to complete financing all incomplete improvements, and
 - (d) Designate the approximate dates on which complete funding is expected to be

deposited into the account.

If the findings in subsections (12) (a) through (d) above are not made, the District shall refund, on a prorated basis, to the current record owner or owners of the development projects for which the fees were paid the unexpended and uncommitted portion of the fees and any interest accrued for which a need cannot be demonstrated.

IT IS HEREBY FURTHER RESOLVED that:

- 1) The District Board of Directors ("District Board") adopts the capital fire facilities and equipment plan, attached as Exhibit B, in compliance with Government Code Section 66002 at a noticed public hearing; and
- 2) The District will add a 10% charge to the Fee that reflects the District's reasonable costs of administrating the fee and complying with all laws, ordinances, and regulations related to the Fee, including the requirements imposed by the County's Fire Protection Mitigation Fee Ordinance; and
- 3) The Fee Program may be amended annually or from time to time in accordance with the procedures and based upon the findings for such fees set forth in Government Code Section 66000 et seq., or any applicable successor statues; and
- 4) Subject to the County Board's approval, on July 1st of each fiscal year, beginning in July 2022, the Fire Chief, or his/her designee shall make automatic annual adjustments to the Fees by a percentage equal to the percentage change in the "Engineering News Record's Construction Cost Index-20 Cities annual Average" for the proceeding twelve (12) month period calculated from January 1 to December 31. This adjustment will offset the effects of inflation related construction cost increases (or any deflation related decreases). If this index should cease publication, the Fire Chief shall use any appropriate official index published by the Bureau of Labor Statistics, or successor, or similar agency as may then exist or may then be most nearly equivalent thereto. Land costs may be evaluated annual and adjusted as necessary based on the current market conditions at the time. The Fire Chief shall present the new Fees or adopting by resolution of the District Board after at least one public hearing; and
- 5) The District Board formally requests that the County impose the specified fire mitigation fee on the District's behalf and that the County Board authorize the District to collect the Fee from applicants prior to issuance of a building permit for new construction with the District's Sphere of Influence; and
- 6) If any portion of this Resolution is found by a court of competent jurisdiction to be invalid, such finding shall not affect the validity of the remaining portions of this Resolution.

PASSED AND ADOPTED by the Board of Directors of the Little Lake Fire Protection District, at a regularly scheduled meeting held on the 9th of February, Two-thousand and Twenty-one, by the following vote of said District Board:

AYES: Tony Madrigal, Silip Lucier, Nancy Stipe and Arnie Mello

EXECUTIVE SUMMARY

INTRODUCTION

This Fire Impact Fee Nexus Study (“Nexus Study”) was prepared pursuant to the Mitigation Fee Act (“Act”) as found in Government Code § 66000 et seq. The purpose of this Nexus Study is to establish the legal and policy basis for the collection of a new fire impact fee (“fee”) on new development within the Little Lake Fire Protection District (“District”).

As an urban/rural fire protection agency, the District provides first-responder fire protection and emergency response services to the City of Willits (“City”) and the surrounding unincorporated Little Lake Valley (except for the Brooktrails community) in Mendocino County (“County”). Specifically, the District’s services include fire prevention and suppression, wildland fire protection, emergency medical services, rescue and extraction, hazardous material response, and fire prevention services.

The purpose of the proposed fee is to fund the one-time cost of expanding the District’s facilities, apparatus, and equipment in order to maintain its existing level of service. For purposes of this Nexus Study, the term “facilities” or “fire system facilities” refer to facilities (land, stations, and other buildings), apparatus (engines, ambulances, and other vehicles), and equipment (ancillary and station). The term “new development” refers to the persons (residents and employees working in the District’s service area) and the structural area (residential area and nonresidential building area) in which the persons live or work.

In order to impose such fees, this Nexus Study demonstrates that a reasonable relationship between new development, the amount of the fee, and fire facilities, apparatus, and equipment funded by the fee. More specifically, this Nexus Study presents findings to meet the procedural requirements of the Mitigation Fee Act (“Act”), also known as AB 1600, which are as follows:

1. Identify the **purpose** of the fee.
2. Identify the **use** to which the fee is to be put.
3. Determine how there is a reasonable relationship between the fee’s use and the type of development project on which the fee is imposed (“**benefit relationship**”).
4. Determine how there is a reasonable relationship between the need for the fire facilities and the type of development project on which the fee is imposed (“**impact relationship**”).

5. Determine how there is a reasonable relationship between the amount of the fee and the cost of the facilities or portion of the facilities attributable to the development on which the fee is imposed (“**proportional relationship**”).

Additionally, the Act specifies that the fee shall not include costs attributable to existing deficiencies in public facilities but may include the costs attributable to the increased demand for public facilities reasonably related to the development project in order to refurbish existing facilities to maintain the existing level of service or achieve an adopted level of service that is consistent with the general plan.

To determine the District’s fire impact fee consistent with these **substantive requirements**, this Nexus Study utilizes a modified system-wide existing facility standard methodology. Under this widely-used method, the District’s ratio of existing fire protection facilities, apparatus and equipment to existing development establishes the standard for determining new development’s fair share of the cost to expand the District’s fire system as growth occurs.

Existing development is determined based on the assumption that 50 percent of the need and demand for fire service (and associated facilities, apparatus, and equipment) is related to the persons (residents or employees), and the other 50 percent of the need is related to the structural area (i.e., living area or nonresidential building area) in which they live or work. The value of the District’s existing fire system is determined using the replacement value of the District’s existing inventory of fire protection facilities, apparatus, and equipment. These costs are then applied to nine land use categories in proportion to the need they create for fire protection and emergency response services to establish a cost/fee per square foot.

The Nexus Study also identifies the fair share cost of planned fire and emergency response services facilities needed to serve existing development at the same facilities standard applied to new development. The identification and use of a facilities standard ensure that new development will only fund the share of planned facilities needed to accommodate growth. Thus, consistent with the Act, this Nexus Study demonstrates that there is a reasonable relationship between new development, the amount of the fee, and facilities, apparatus, and equipment funded by the fee.

The Nexus Study also details the **procedural requirements** for approval of the Nexus Study and proposed fire impact fee program (“fee program”) by the District Board of Directors and adoption by the City Council and the County Board of Supervisors on behalf of the District. Also, the Act contains specific requirements for the **annual administration** of the fee program. These statutory requirements and other important information regarding the imposition and collection of the fee are provided in the last sections of the Nexus Study.

SUMMARY OF KEY FINDINGS

The following key findings from the Nexus Study are presented:

1. A fire impact fee is necessary to ensure that the District can adequately expand its fire protection facilities, apparatus, and equipment to accommodate the population and employment growth and new structural area created by new development.
2. Currently, the County and the City do not impose fire impact fees on behalf of the District.
3. The District may approve, and the City and County may adopt on their behalf, the following fee at or below the levels determined by this Nexus Study.

FIGURE 1 – MAXIMUM FIRE IMPACT FEE SCHEDULE

Land Use Category	Maximum Fire Impact Fee
	Per Living Sq.
Residential Development	Ft.
Single-Family Housing	\$0.98
Multi-Family Housing	\$1.06
Mobile Home	\$0.94
Accessory Dwelling Unit	See Note 2
	Per Building
Nonresidential Development	Sq. Ft.
Retail / Commercial	\$0.99
Office	\$1.35
Industrial	\$1.06
Agriculture	\$0.60
Warehouse / Distribution	\$0.65

Notes:

¹ The fire impact fee is rounded to the nearest whole cent.

² Pursuant to Govt. Code § 65852.2(f)(3)(A), the fire impact fee for an accessory dwelling unit shall imposed proportionately in relation to the square footage of the primary dwelling unit. Accessory dwelling units less than 750 square feet of living area are exempt.

4. Fee revenue may be used to fund 100% of the cost of new and expanded facilities, 100% of the cost of apparatus, vehicles, and equipment that expand the District's existing inventory, and up to 22.0 percent the replacement cost of apparatus, vehicle and equipment purchases.
5. Consistent with nexus requirements of the Act, this Nexus Study demonstrates that there is a reasonable relationship between new development, the amount of the proposed fee, and facilities, apparatus, and equipment funded by the fee.

SUMMARY OF GENERAL RECOMMENDATIONS

Based on the findings presented in the Nexus Study, the following general recommendations are presented:

1. Since only cities and counties have land-use authority to impose development impact fees as a condition of project approval, the District's proposed fee must be adopted by the City and the County on behalf of the District.
2. The District's approved fee should be adopted and implemented in accordance with the applicable provisions of the Act.
3. The District should comply with the annual reporting requirements under Government Code § 66006(b).
4. Following the fifth fiscal year after the first deposit of fee revenue and every five years thereafter, the District should comply with the reporting requirements under Government Code § 66001(d).
5. The cost estimates presented in this Nexus Study are in January 2020 dollars. The fire impact fee should be adjusted automatically without further action by the District Board, the City Council, or the County Board on the first day of each fiscal year by the previous calendar percentage change in the Engineering News-Record Construction Cost Index (20-City Average).

DETERMINATION OF EXISTING DEVELOPMENT

The District serves both residences and businesses throughout their service area. As such, the demand for the District's services and associated facilities, apparatus, and equipment is measured by its service population and the structural area it protects. This section will first determine the service population and structural area within the District's service area. This data will be used to establish an existing facilities demand factor for the various residential, and nonresidential land uses within the District, which in turn will be used to determine existing development's total facilities demand.

EXISTING SERVICE POPULATION AND STRUCTURAL AREA

The District provides first-responder fire protection and emergency response services to the City of Willits ("City") and the surrounding unincorporated Little Lake Valley (with the exception of the Brooktrails community) in Mendocino County ("County"). Specifically, the District's services include fire prevention and suppression, wildland fire protection, emergency medical services, rescue and extraction, hazardous material response, and fire prevention services.

The District currently serves an estimated resident population of 9,194. The District's resident population estimate is based on figures from U.S. Census Bureau, 2017 ACS 5-Year Estimate, for the City of Willits and Little Lake Census County Division excluding the Brooktrails CDP area and assumes a 7.3 percent vacancy rate. The District also protects approximately 4,389 occupied and vacant housing units and approximately 1.8 million square feet of nonresidential building area. Estimated total housing units are from U.S. Census Bureau, 2017 ACS 5-Year Estimate, for Little Lake Census County Division excluding the Brooktrails CDP. Nonresidential is estimated assuming a jobs-to-housing ratio of 1.0 for the City of Willits and 0.5 for the unincorporated area and 552 sq. ft. of building area per employee.

FIRE FACILITIES DEMAND FACTOR

To determine the relative demand for fire facilities for various land uses, this Nexus Study relies on equivalent dwelling unit ("EDU") factors to compare fire facilities demand across multiple residential and nonresidential land uses. For purposes of this Nexus Study, it is assumed that 50 percent of the demand for fire protection and emergency response services is related to the persons (residents or employees), and the other 50 percent of the need is to protect the structural area (living area or nonresidential building area) in which the persons live or work.

The equivalent dwelling unit (“EDU”) is also used to convert the nonresidential building area to a residential dwelling unit value. This approach allows for the cost of facilities, apparatus, vehicles, and equipment to be equitably apportioned among residential and nonresidential land uses.

Figure 2 on the following page shows the calculation of the fire facilities demand factor for nine land use categories. The residential land use categories are expressed per dwelling unit, and the nonresidential land use categories are expressed per square foot of building area. By this measure, for example, one single-family home creates the demand for the District’s facilities, apparatus, and equipment equal to 560 square feet of retail/commercial building area.

FIGURE 2 – FIRE FACILITIES DEMAND FACTOR

Land Use Category	Unit	Persons per Unit ¹	Persons EDU	Persons Demand Factor	Structural Area per Unit	Structural Area EDU	Structural Area	Fire Facilities
							Demand Factor	EDU Demand Factor
Calc	a	b = a / 2.61	c = b * 50%	d	e = d / 1,800	f = e * 50%	g = c + f	
Single-Family Housing	DU	2.61	1.00	0.50	1,800	1.00	0.50	1.00
Multi-Family Housing	DU	1.50	0.57	0.29	900	0.50	0.25	0.54
Mobile Homes	DU	1.62	0.62	0.31	1,200	0.67	0.33	0.64
Residential	DU	2.22	0.85	0.43	1,636	0.91	0.45	0.88
Retail / Commercial	KBSF	1.49	0.57	0.29	1,000	0.56	0.28	0.56
Office	KBSF	2.50	0.96	0.48	1,000	0.56	0.28	0.76
Industrial	KBSF	1.67	0.64	0.32	1,000	0.56	0.28	0.60
Agriculture	KBSF	0.33	0.13	0.06	1,000	0.56	0.28	0.34
Warehouse / Distribution	KBSF	0.50	0.19	0.10	1,000	0.56	0.28	0.37
Nonresidential	KBSF	1.81	0.69	0.35	1,000	0.56	0.28	0.62

Notes:

¹ Residents per unit is based on census data from the 2010 U.S. Census. All nonresidential density figures (except Agriculture) based on the 2001 "Employment Density Study" prepared by The Natelson Company, Inc. for the Southern California Association of Governments expressed in terms of the number of employees per 1,000 square feet of building area. The density figure for Agriculture is from the 2004 "Employment Density in the Puget Sound Region" report prepared by E.K. Pflum for the University of Washington.

EXISTING FIRE FACILITIES DEMAND EDUS

Figure 3 below calculates the District's existing demand EDUs based on the total number of dwelling units and the estimated nonresidential building area within the District. As shown, the total existing demand EDUs for the District is 4,904. Existing demand EDUs represents the level of existing development served by the District's existing facilities.

FIGURE 3 – EXISTING DEMAND EDUS

Land Use Categories	Unit	Units ¹	Fire Facilities EDU Demand Factor ²	Existing Demand EDUs
Calc		a	b	c = a * b
Single Family Housing	DU	2,914	1.00	2,914
Multi-Family Housing	DU	647	0.54	349
Mobile Homes	DU	828	0.64	530
Nonresidential	KBSF	1,793	0.62	1,111
Total		6,182		4,904

Source: U.S. Census Bureau; California Department of Finance; SCI Consulting Group

Notes:

¹ Housing unit count is from U.S. Census Bureau, 2017 ACS 5-Year Estimate, for Little Lake Census County Division excluding the Brooktrails CDP. Nonresidential is estimated assuming a jobs-to-housing ratio of 1.0 for the City of Willits and 0.5 for the unincorporated area and 552 sq. ft. of building area per employee.

DETERMINATION OF EXISTING FIRE SYSTEM FACILITIES

EXISTING FIRE SYSTEM FACILITIES

The next step in determining the District's existing facilities standard is to calculate the replacement value of the District's fire protection and emergency response facilities system. Figure 4 below presents a summary of replacement value (in 2020 dollars) for the District's existing facilities (land and stations), apparatus (engines, ambulances, and other vehicles) and equipment (ancillary and station).

The replacement cost for the main station is based on the estimated replacement cost per square of \$667 for the planned new station. The estimated land value is based on market research conducted by SCI Consulting Group assessed land value for sales within 2019. The estimated replacement value of the District's apparatus, vehicles, and equipment inventory is based on unit cost assumptions provided by the District. Estimated values of older apparatus have been discounted from the replacement value of the new apparatus to reflect their age. (The detailed inventory and estimated replacement value for each is provided in Appendix A.)

As shown below, the estimated value of the District's existing facilities, apparatus, and equipment is \$8.4 million in 2020 dollars.

FIGURE 4 – REPLACEMENT VALUE OF EXISTING FIRE SYSTEM FACILITIES

Fee Components	Total Replacement Value (2020\$)
Land	\$235,500
Stations / Other Buildings	\$5,252,000
Apparatus / Vehicles	\$1,964,500
Ancillary Equipment	\$929,000
Total Existing Fire System Facilities	\$8,381,000

Source: Little Lake Fire Protection District ; SCI Consulting Group

EXISTING FIRE FACILITIES STANDARD

The District's ratio of existing facilities, apparatus, and equipment to the existing demand establishes the standard for determining new development's fair share of the cost to replace and expand the District's facilities as growth occurs. As shown below, the standard is represented by the existing fire system facilities cost of \$1,709.01 per demand EDU.

FIGURE 5 – FIRE FACILITIES COST PER DEMAND EDU

Existing Fire System Facilities ¹	\$8,381,000
Existing Demand EDUs ²	4,904
Existing Fire Facility Cost Per EDU	\$1,709.01

Notes:

¹ See Figure 4.

² See Figure 3.

DETERMINATION OF THE FIRE IMPACT FEE

The Mitigation Fee Act requires that development impact fees be determined in a way that ensures a reasonable relationship between the amount of the fee and the cost of facilities, apparatus, and equipment attributable to the development on which the fee is imposed. In this section, the District's facilities standard determined and then applied to nine land uses categories in proportion to the demand they create as measured by their fire facilities EDU demand factor.

RESIDENTIAL FIRE IMPACT FEE

Since residential land uses have different dwelling unit occupancies and sizes, the residential fire impact fee is expressed on a per square footage basis for the following four residential land use categories. The four residential land use categories are defined below.

- **“Single-family housing”** means detached and attached one-family dwelling units with an assessor's parcel number for each unit.
- **“Multifamily housing”** means buildings or structures designed for two or more families for living or sleeping purposes and having kitchen and bath facilities for each family.
- **“Mobile home”** means a development area for residential occupancy in vehicles that require a permit to be moved on a highway, other than a motor vehicle designed or used for human habitation and for being drawn by another vehicle.
- **“Accessory dwelling unit”** means a dwelling unit, or “granny flat,” either a detached or attached dwelling unit, which provides complete, independent living facilities for one or more persons with provisions for living, sleeping, eating, cooking, and sanitation on the same parcel as the primary residence.

The fire impact fee shall be charged on the square footage within the perimeter of a residential structure. Garages, carports, walkways, overhangs, patios, enclosed patios, detached storage structures, or similar areas are excluded.

Figure 6 below presents the calculation of the District's proposed residential fire impact fees. The District may approve, and the County may adopt on their behalf, the following fee at or below the levels determined by this Nexus Study. As shown, the residential fees are determined by multiplying the facilities standard by their respective facilities demand EDU factor plus an additional 4 percent for annual administration of the fire impact fee program. The fee program administrative cost component is designed to offset the cost of County collection, documentation, annual reporting requirements, five-year report requirements, periodic Nexus Study updates, and other costs reasonably related to compliance with the Act.

FIGURE 6 – MAXIMUM RESIDENTIAL FIRE IMPACT FEES

Residential Land Use Category	Facility Standard ¹	Facilities Demand EDU Factor ²	Cost per Unit	Admin. Expense 4% ³	Average Living Area per Sq. Ft. ⁴	Proposed Residential Fees ⁵	
							Calc
			<i>- per dwelling unit -</i>				<i>- per sq. ft. -</i>
Single-Family Housing	\$1,709.01	1.00	\$1,709.01	\$68.36	1,800	\$0.98	
Multi-Family Housing	\$1,709.01	0.54	\$922.87	\$36.91	900	\$1.06	
Mobile Homes	\$1,709.01	0.64	\$1,093.77	\$43.75	1,200	\$0.94	
Accessory Dwelling Units	NA	NA	NA	NA	NA	See Note 6	

Notes:

¹ See Figure 5.

² See Figure 2.

³ County collection, documentation, annual reporting requirements, five-year report requirements, periodic Nexus Study updates and other costs reasonably related to compliance with the Act.

⁴ Based on Mendocino County Assessor's Lien Roll Data as of July 1, 2019.

⁵ Proposed residential fire impact fees are rounded down to the nearest cent.

⁶ Pursuant to Govt. Code § 65852.2(f)(3)(A), the fire impact fee for an accessory dwelling unit shall imposed proportionately in relation to the square footage of the primary dwelling unit. Accessory dwelling units less than 750 square feet of living area are exempt.

Pursuant to 65852.2.(f)(3)(A), the fire impact fee for an accessory dwelling unit "ADU" of 750 square feet or more shall be charged proportionately in relation to the square footage of the primary dwelling unit. For example, the calculation of the maximum park impact fee for the construction of a 750 square foot ADU on a single-family parcel would be charged at the single-family housing fee. ADUs less than 750 square feet of living area are exempt.

NONRESIDENTIAL FIRE IMPACT FEES

As stated earlier, the Mitigation Fee Act requires that development impact fees be determined in a way that ensures a reasonable relationship between the fee and the type of development on which the fee is imposed. Since different nonresidential land uses have varying employment densities, the nonresidential fire impact fee is expressed per square foot of building area based on their respective facilities demand EDU factor for five nonresidential land use categories. The five nonresidential land use categories are as follows:

- **“Retail / Commercial”** means retail, commercial, educational and hotel/motel construction;
- **“Office”** means general, professional and medical office construction;
- **“Industrial”** means manufacturing construction;
- **“Agriculture”** means a structure designed and constructed to house farm implements, hay, grain, poultry, livestock, or other horticultural products, including storage coolers. This structure shall not be a place of human habitation or a place of employment where agricultural products are processed, treated or packaged; nor shall it be a place used by the public; and
- **“Warehouse / Distribution”** means buildings devoted to the storage or distribution of non-agricultural products. A distribution center for a set of products is a warehouse or other specialized building, which is stocked with products or goods to be redistributed to retailers, wholesalers, or directly to consumers.

The nonresidential fee shall be charged for “covered and enclosed space” within the perimeter of a nonresidential structure. Any storage areas incidental to the principal use of the development, garage, parking structure, unenclosed walkway, or utility or disposal area are excluded.

Figure 7 on the following page presents the calculation of the nonresidential fire impact fees. The District may approve, and the County may adopt on their behalf, the following fees at or below the levels determined by this Nexus Study. As shown, the fees for the five nonresidential land uses are determined by multiplying the facility standard by their respective facilities demand factor plus an additional 4 percent for administration of the fire impact fee program.

FIGURE 7 – MAXIMUM NONRESIDENTIAL FIRE IMPACT FEES

Nonresidential Land Use Category	Facility Standard ¹	Facilities Demand		Admin. Expense 4% ³	Total Cost per Unit	Proposed Nonres. Fire Impact Fee ⁴
		EDU Factor ²	Cost per Unit			
Calc	a	b	c = a * b	d = c * 0.04	e = c + d	f = e / 1,000
						- per sq. ft. -
Retail / Commercial	\$1,709.01	0.56	\$957	\$38.28	\$995.33	\$0.99
Office	\$1,709.01	0.76	\$1,299	\$51.95	\$1,350.80	\$1.35
Industrial	\$1,709.01	0.60	\$1,025	\$41.02	\$1,066.42	\$1.06
Agriculture	\$1,709.01	0.34	\$581	\$23.24	\$604.31	\$0.60
Warehouse / Distribution	\$1,709.01	0.37	\$632	\$25.29	\$657.63	\$0.65

Notes:

¹ See Figure 5.² See Figure 2.³ County collection, documentation, annual reporting requirements, five-year report requirements, periodic Nexus Study updates and other costs reasonably related to compliance with the Act.⁴ Proposed nonresidential fire impact fees are rounded down to the nearest cent.

PROJECTED FIRE IMPACT FEE REVENUE

Figure 8 projects fee revenue through 2040. Total fire impact fee revenue (in 2020 dollars) is then estimated by multiplying the facilities standard by demand EDU growth.

FIGURE 8 – PROJECTED FIRE IMPACT FEE REVENUE

Land Use Category	Current Demand EDUs (2020) ¹	Estimated Demand EDU Growth (2040) ²	Total Cost per Demand EDU ³	Projected Fire Impact Fee Revenue (2020\$)
	Calc	a	b	c
Residential	3,263	718	\$1,709.01	\$1,228,000
Nonresidential	1,111	245	\$1,709.01	\$418,000
Total	4,374	963	\$1,709.01	\$1,646,000

Source: Little Lake Fire Protection District; SCI Consulting Group

Notes:

¹ See Figure 3.² Estimated Demand EDUs based on projected annual growth rate of 1% , or approximately 12 new housing units per year.³ See Figure 5.

USE OF FIRE IMPACT FEE REVENUE

It is important to note at the fire impact fee program is designed not to be dependent on a specific capital improvement plan and a particular level of new development. Only enough fee revenue will be generated for the District to expand its existing level of service to serve the growing community.

Fee revenue may be used to fund up to 100% of the cost of the new land for fire stations, construction of new fire stations, expansion of existing fire stations, and the purchase of apparatus, vehicle, and equipment purchases added to the District existing inventory. Since the District will need to replace apparatus, vehicles, and equipment more quickly due to the increased service calls from the growth in the persons and structure area created by new development, the District may use fee proceeds to fund up to 22.0 percent of the replacement cost of existing apparatus, vehicle, and equipment. Fee revenue may not be used to fund 1) the renovation of existing facilities, and 2) operational, maintenance, or repair costs.

The District will need to fund existing deficiencies with other funding sources. Other potential funding sources include, but are not limited to, a general obligation bond measure, state and federal grants, the District's general fund, and existing or new special tax and assessment proceeds, if allowable.

NEXUS FINDINGS

This section frames the Nexus Study findings in terms of the legislated requirements to demonstrate the legal justification of the fire impact fees. The justification of the fire impact fees on new development must provide information as set forth in Government Code § 66000. These requirements are discussed below.

PURPOSE OF FEE

The purpose of the fire impact fee is to fund the cost of fire protection and emergency response facilities, apparatus, and equipment attributable to new residential and nonresidential development in the District. The fire impact fees will ensure that new development will not burden existing development with the cost of facilities required to accommodate growth as it occurs within the District.

USE OF FEE REVENUE

Fee revenue will be used to fund the cost of new and expanded facilities, apparatus, and equipment to serve new development. Provided below is a summary of the allowable and prohibited uses of fee revenue.

FIGURE 9 – SUMMARY OF ALLOWABLE AND PROHIBITED USES OF FEE REVENUE

<u><i>Allowable Uses</i></u>	<u><i>Prohibited Uses</i></u>
<ul style="list-style-type: none"> • <i>The cost of new (added) or expanded land and facilities (100%)</i> • <i>The cost of apparatus, vehicles and equipment purchases that expand the system inventory (100%)</i> • <i>Facility costs already incurred to provide growth-related capacity (100%)</i> • <i>Portion of apparatus and vehicles replacement costs attributable to new development (22%)</i> • <i>Portion of a renovation project that expands service capacity</i> 	<ul style="list-style-type: none"> • <i>Existing deficiencies, such as improvements to existing facilities that do not expand service capacity</i> • <i>Portion of apparatus and vehicles replacement costs attributable to existing development (78%)</i> • <i>Operational, maintenance or repair costs</i>

BENEFIT RELATIONSHIP

The fee will be collected as development occurs. In order to maintain its existing level of fire protection and emergency response services, fee revenue will be used to replace and expand the District's facilities, apparatus, and equipment to meet the additional demand generated by the new residents and employees and new structural area created by new development projects.

Fee revenue will be deposited into a separate fire impact fee account or fund in a manner to avoid any commingling of the fees with other revenues and funds of the District. The fee revenue will be restricted to uses described in the "Use of Fee Revenue" finding. These actions ensure development projects paying the fees will benefit from their use.

IMPACT RELATIONSHIP

New residential and nonresidential development projects in the District will grow the persons (residents and employees) and the structural area (residential area and nonresidential building area) in persons live or work. The growth in persons and structural area will create additional need for the District's fire protection and prevention, emergency response service, and a corresponding need for new or expanded facilities and replacement of apparatus, vehicles, and equipment. The fee will be imposed on different types of development projects for the additional service population generated and structural area created by new development projects.

PROPORTIONALITY RELATIONSHIP

The cost of fire protection facilities, apparatus, and equipment attributable to a development project is based upon the level of existing development served by the District's existing fire protection and emergency response facilities. The use of a facility standard methodology to determine the fire impact fee achieves proportionality between existing development and new development. Moreover, these equivalent costs are applied to nine land use categories in proportion to the need they create for improved and expanded facilities.

Larger development projects will generate a higher number of persons and structural area to protect and, as a result, will pay a higher fee than smaller development projects. Thus, the application of the fire impact fee schedule to a specific project ensures a reasonable relationship between the fee and the cost of the facilities, apparatus, and equipment attributable to that project.

FEE PROGRAM ADOPTION REQUIREMENTS

The following are the general requirements for approval of the Nexus Study and proposed fire impact fee program (“fee program”) by the District Board of Directors and adoption by the County Board of Supervisors on behalf of the District. The specific statutory requirements for the adoption of the fee program are found in the Mitigation Fee Act (California Govt. Code § 66000 et seq.) and County Ordinance Code Chapter 5.36.

SCI recommends that the notice and hearing requirements be satisfied by the District Board for approval and also by the City Council and County Board of Supervisors for adoption.

LITTLE LAKE FIRE PROTECTION DISTRICT

1. The District Board of Directors shall conduct at least “one open and public meeting” as part of a regularly scheduled meeting on the proposed fee program.
2. At least 14 days before the meeting, the District shall mail out a notice of the meeting to any interested party who filed a written request for notice of the adoption of new or increased fees.
3. At least ten days before the meeting, the District shall make available to the public the Nexus Study for review.
4. At least ten days before the public hearing, a notice of the time and place of the meeting shall be published twice in a newspaper of general circulation with at least five days intervening between the dates of first and last publication not counting such publication dates.
5. After the public hearing, adopt a resolution approving the Nexus Study and proposed fee program with a recommendation that the County Board of Supervisors adopts the proposed fee program on behalf of the District.

CITY OF WILLITS

1. The City Council shall conduct at least “one open and public meeting” as part of a regularly scheduled meeting on the requested fee program.
2. At least 14 days before the meeting, the City shall mail out a notice of the meeting to any interested party who filed a written request for notice of the adoption of new or increased fees.

3. At least ten days before the meeting, the City shall make available to the public the Nexus Study for review.
4. At least ten days before the public hearing, a notice of the time and place of the meeting shall be published twice in a newspaper of general circulation with at least five days intervening between the dates of first and last publication not counting such publication dates.
5. After the public hearing, adopt an ordinance establishing the proposed fee program on behalf of the District.
6. The fire impact fees take effect 60 days after the adoption of the City ordinance/resolution.

MENDOCINO COUNTY

1. The County Board of Supervisors shall conduct at least “one open and public meeting” as part of a regularly scheduled meeting on the requested fee program.
2. At least 14 days before the meeting, the County shall mail out a notice of the meeting to any interested party who filed a written request for notice of the adoption of new or increased fees.
3. At least ten days before the meeting, the County shall make available to the public the Nexus Study for review.
4. At least ten days before the public hearing, a notice of the time and place of the meeting shall be published twice in a newspaper of general circulation with at least five days intervening between the dates of first and last publication not counting such publication dates.
5. After the public hearing, adopt an ordinance establishing the proposed fee program on behalf of the District.
6. The fire impact fees take effect 60 days after the adoption of the County ordinance.

FEE PROGRAM ADMINISTRATION REQUIREMENTS

This section contains general requirements for the administration of the fee program. The specific statutory requirements for the administration of the fee program may be found in the Mitigation Fee Act (California Govt. Code § 66000 et seq.).

ACCOUNTING REQUIREMENTS

Proceeds from the fire impact fee should be deposited into a separate fund or account so that there will be no commingling of fees with other revenue. The fire impact fees should be expended solely for the purpose for which they were collected. Any interest earned by such account should be deposited in that account and expended only for the purpose for which originally collected.

REPORTING REQUIREMENTS

The following information, entitled *Annual Report*, must be made available to the public within 180 days after the last day of each fiscal year:

- a brief description of the type of fee in the account;
- the amount of the fee;
- the beginning and ending balance of the account;
- the fees collected that year and the interest earned;
- an identification of each public improvement for which the fees were expended and the amount of the expenditures for each improvement;
- an identification of an approximate date by which development of the improvement will commence if the local agency determines that sufficient funds have been collected to complete financing of an incomplete public improvement;
- a description of each inter-fund transfer or loan made from the account or fund, including the public improvement on which the transferred or loaned fees will be expended, the date on which any loan will be repaid, and the rate of interest to be returned to the account; and
- the amount of money refunded under section Govt. Code § 66001.

The District shall review the information made available to the public pursuant to paragraph (1) at the next regularly scheduled public meeting, not less than 15 days after this information is made available to the public, as required by this subdivision. Notice of the time and place of the meeting, including the address where this information may be

reviewed, shall be mailed, at least 15 days prior to the meeting, to any interested party who files a written request with the District or the County for mailed notice of the meeting. Any written request for mailed notices shall be valid for one year from the date on which it is filed unless a renewal request is filed. Renewal requests for mailed notices shall be filed on or before April 1 of each year. The legislative body may establish a reasonable annual charge for sending notices based on the estimated cost of providing the service.

For the fifth fiscal year following the first receipt of any fire impact fee proceeds, and every five years thereafter, the District must comply with Government Code Section 66001(d)(1) by affirmatively demonstrating that the District still needs unexpended fire impact fees to achieve the purpose for which it was originally imposed and that the District has a plan on how to use the unexpended balance to achieve that purpose. Specifically, the District shall make all of the following findings, entitled Five-Year Report, with respect to that portion of the account or fund remaining unexpended, whether committed or uncommitted:

- Identify the purpose to which the fee is to be put;
- Demonstrate a reasonable relationship between the fee and the purpose for which it is charged;
- Identify all sources and amounts of funding anticipated to complete financing in incomplete improvements; and
- Designate the approximate dates on which the funding is expected to be deposited into the appropriate account or fund.

A refund of all or any part of such unexpended or unappropriated fee revenue, together with any actual interest accrued thereon, in the manner described in Section 66001 (e) of the Government Code, shall be provided to the current record owner of any property for which a fee was paid; provided that if the administrative costs of refunding such fee revenue exceed the amount to be refunded.

TRANSPARENCY REQUIREMENTS

Pursuant to AB 1483 enacted in 2019, the District must clearly post the information on the District's website regarding the fee program:

- The current fee schedule indicated the effective date when approved by the County Board of Supervisors and the City Council.
- Current and five previous annual accounting reports.
- Fire Impact Fee Nexus Study, Final Report

ANNUAL INFLATIONARY ADJUSTMENT

In order for the District to maintain its level of service, the fee will need to be automatically adjusted annually commensurate with changes in the cost of facilities, apparatus, and equipment. Therefore, the fire impact fee should be adjusted on July 1 of each fiscal year by the percentage change in an appropriate engineering cost index as published by the Engineering News-Record, or its successor publication for the preceding twelve months.

IMPROVEMENTS IN-LIEU OF FEES

Subject to certain restrictions, if a developer dedicates land, constructs facilities or provide apparatus/equipment for the District, the fire impact fees imposed on that development project may be adjusted to reflect a fee credit for the cost of the dedicated land, facilities constructed and apparatus/equipment provided.

FEE CREDITS

In order to comply with the Act and recent court cases, a fee credit must be given for demolished existing square footage as part of a new development project.

FEE EXEMPTIONS

Accessory dwelling units less than 750 square feet of living area are exempt.
