Medi-Cal Approved Claims Data for Calendar Year 2019

The data below provides a comparison of Mendocino County, other small counties in the state, and statewide averages for the penetration rate and approved claims per beneficiary served per year both overall and by service categories. This data was provided to Mendocino County Mental Health Plan by Behavioral Health Concepts (BHC) the entity with the Department of Healthcare Services to conduct a yearly External Quality Review of Mendocino County Mental Health Plan. Please note this only shows the population served through Medi-Cal and does not include individuals and services provided by grant funds or Mental Health Services Act.
