

pbscommissions - Re: Public comment on CDP 2019-0024, -0034 (Caltrans)

**From:** Jim Heid <jim@heidsite.com>  
**To:** Julia Krog <krogi@mendocinocounty.org>; <pbscommissions@mendocinocounty....  
**Date:** 11/17/2021 7:54 AM  
**Subject:** Re: Public comment on CDP 2019-0024, -0034 (Caltrans)

(This is a resend because I didn't include all relevant county stakeholders in the original email. Apologies, Ms. Krog, for the duplication!)

--

Dear Ms. Krog,

Here is a list of the people who Caltrans (Frank Demling) emailed regarding a public informational meeting that was held in September 2019 regarding the two projects ("safety" and "drainage") on Highway 1.

I've attached a screenshot of Mr. Demling's email, and I pasted the email addresses of interested persons at the end of this email.

This is one example of Caltrans' having a substantial list of persons and addresses that it knew, already on September 3, 2019, to be interested in the Navarro Ridge and Navarro Drainage projects.

More than 100 persons, including members of the press, attended the meeting that Caltrans noticed for September 19, 2019, and at Caltrans' request, many of the persons at the meeting also filled out contact information sheets and handed them back to Caltrans staff.

Thank you,  
 Jim Heid

A public meeting is scheduled for September 19, 2019 at the Albion Elementary School, 30409 Albion Ridge Road, Albion, California from 5:30 p.m. to 7:00 p.m. The purpose of this informational meeting is to provide updates on the Navarro Ridge Safety Project (01-0C550 0E940), Albion Maintenance Project (01-0E201) and the Albion River Bridge Rehabilitation/Replacement Project (01-40110) and Salmon Creek Bridge Replacement (01-40140)

Navarro Ridge Safety

This project proposes to improve the safety of State Route (SR) 1 from 1.5 miles north of the junction of SR 128 and SR 1 to 0.1 mile south of Navarro Ridge Road, in Mendocino County, near Albion. The project was initiated by the California Department of Transportation (I-805) in response to a high incidence of run-off-road collisions.

Navarro Ridge Drainage

This project proposes to improve the drainage system south of Navarro Ridge Road at postmile (PM) 42.33, in Mendocino County near Albion at Navarro Ridge Road. The project sponsor, California Department of Transportation (Caltrans) District 1 Maintenance Hydraulics 2014 to protect the integrity of the highway embankment.

Albion Bridge Highway Maintenance

This project proposes to repair and rehabilitate the Albion River Bridge (110-0136) which includes removal and replacement of bolted connections and hardware along the timber sub-structure; repair checks, splits and rot in the top transverse horizontal members of the tower; place new scabs; remove the abandoned steel pipe conduit; inspect a total of three split-ring connectors and one mole clay-plate connector.

Albion River Bridge Rehabilitation/Replacement Project and Salmon Creek Bridge Replacement

These projects propose to improve the function, the geometrics and the seismic and structural integrity for both structures to ensure uninterrupted traffic movement in the event of a collision or emergency incident, seismic event, or other catastrophic failure, and to provide a safe crossing for bicyclists across the bridge.

Thank you,

Frank Demling, PLS

Hello Mr. Heid,

Your letter indicates that you believe there was a noticing error as individuals that are interested were not notified. I want to make sure it's understood that members of the public must request to be placed on an interested parties list. Do you know if the individuals in question did that procedure with our office? Can you provide me the names of individuals that you believe should have been noticed that may not have been?

Thank you,
