Please forward this to all MHRB Members. Please advise this has been done.

MHRB 2021 - 0009 is multifaceted. Let me speak to the elements I agree with first. I agree with the tin roofing on the out buildings. Bueno.

As to the metal and/or vinyl clad windows, No.

The Historic Guidelines clearly state for windows, "Windows and Doors... Metal or Plastic Frames are not acceptable." Similarly, "Raw aluminum combination storm windows or doors and plastic contemporary are not acceptable."

This application should never have come before your Board. It should have been stopped at the front desk.

I suggest -- strongly -- that you deny this element of this application, as being outside of the MHRB Design Guidelines.

Respectfully,

Lee Edmundson, Mendocino
