

RE: CDP 2020-0022

Planning application for Audrey and Bill Irwin, 1656 Cameron rd., Elk

From: Gene & Galer Barnes 1620 Cameron rd., Elk

To Whom It May Concern:

We are writing to express our 100% support of the application currently before the Coastal Development Commission and Building and Planning Services to build a primary residence in our neighborhood by Mr. and Mrs. Irwin. In our opinion, the Irwins have made every possible effort to comply with and provide full information to the relevant departments involved with their building permits. We fully support their desire to build a primary residence on our little lane, and we look forward to having them as full-time neighbors and friends. We see no reason for question or delay to their permit application, and hope that they will be granted permission to begin the building process at the earliest possible moment. They will be great full-time additions to the Elk community, and we are heartened to see this kind of development in our North Greenwood region.

Sincerely,

Gene and Galer Barnes
