Subject: Ray's Road zoning permit application

Hello

I Have lived near the Boonville Fairgrounds for 43 years and I have experienced the impact of traffic, noise and the invasion of privacy. The Boonville fair is a county and community facility with a fair board that extends itself to the community and the community has opportunity for feedback on all events. It has taken quite a bit of effort and compromise over the years To reach reach equitable compromises, but there is an understanding of overall community well-being. There is still quite a bit of impact on the Neighborhood environment from these events but we have a voice in the size and impact of these public events.

The Rays Road as proposed would be a very negative impact on the neighborhood in terms of noise, traffic, and rural privacy. Rays Road is unfit for high-volume traffic, it is a real quiet neighborhood and the proposed expansion set a very bad precedent.

Thank you very much for your consideration Robert Goodell, resident of Anderson Valley.
