With QPR training, you have an opportunity to save a life. QPR is an evidence-based suicide prevention training that teaches basic skills.

Similar to CPR, the fundamentals are easy to learn. In this **FREE** certification training you will gain the skills to act and prevent a possible tragedy.

QPR training teaches you to follow three simple steps:

1. **Question** a person about suicidal thoughts
2. **Persuade** them to get help
3. **Refer** the person to the appropriate professional help or resource

Through this training and practice, you will learn how to recognize the warning signs of suicide, including verbal, behavioral, and situational cues.
