Water Utility

The Water Treatment Department is dedicated to providing a safe and reliable supply of high-quality drinking water for the citizens of Ukiah and their guests. Our highly professional and competent staff monitors demand within the system and matches the output of the sources to meet the demand. On a daily basis, staff monitors disinfectant levels and flow rates. On a weekly basis, they collect samples to be analyzed for microbial contamination, color and odor. On a monthly schedule, they calibrate the instruments that display and record the various parameters that indicate primary water quality. Throughout the year our staff collects water samples to be analyzed for a variety of contaminants. The results of this work ensure the citizens of Ukiah that the quality is at a maximum, better than those required by both the United States Environmental Protection (USEPA) and the State Water Resources Control Board Division of Drinking Water (DDW).

Water Utility

Nature has given the City of Ukiah a high-quality abundant supply of water. The City of Ukiah's primary water source is the underflow from the Russian River which is classified as Ground Water under Direct Influence for Surface Water. There are four ground water sources located at various points within the City Limits. These sources exceed the needs of both winter and summer demand serving over 7,000 residential and commercial connections with over 90 miles of water main.

The City has a broad portfolio of water rights which allow the City to shift sources of water as needed.

- Pre-1914 Appropriative Right to divert approximately 2,000 acre-feet annually from the Russian River
- 1954 Appropriative Right to divert approximately 14,480 acre-feet annually from the Russian River
- Capability to divert approximately 4,000 acre-feet of groundwater in the Ukiah subbasin
- Contract with RRFCC for 800 acre-feet annually

As recent experience in 2014-2015, as the driest year on record demonstrates, the City has sufficient water available to meet current and future needs, regardless of water year type or hydrology, of areas well beyond the existing City limits. The City or its processor in interest has been supplying water to its residents since the later 1800's.

Maintenance and Operations

The highly skilled staff of water operations maintain the water distribution system to ensure delivery of clean and safe drinking water with a minimum or no interruption to our customers. Staff monitor demand within the system and matches the output of the sources to meet the demand. A Supervisory Control and Data Acquisition (SCADA) system allows staff to effectively operate and troubleshoot the City's water distribution system by monitoring all pumps, pump stations, and reservoir parameters remotely.

▶ Water Utility

▼ Recycled Water and Wastewater

Recycled Water

The Recycled Water System includes nearly eight miles of pipeline, a 66-million-gallon water storage reservoir, upgraded treatment facilities and improved water and wastewater infrastructure on Oak Manor Drive. This allows the City to serve approximately 325 million gallons of water to farmers, parks, and schools.

As of 2020, the City has completed the first three phases of this project which provide an additional 1,000-acre feet per year of water supply to the Ukiah Valley. Phase 4, the final phase, is scheduled for construction in 2021 and will provide an additional 400-acre feet per year.

The recycled water project known as the "purple pipe project" provides numerous benefits to our community including promoting a vibrant agricultural region, reducing diversions from the Russian River, assisting in conformation to State conservation objectives and improving environmental habitat by providing an alternative source for frost protection.

Wastewater

Water that goes down your shower, toilet and sink drain enters our wastewater collection system. Over 93 miles of underground pipes bring this wastewater from homes, businesses, and industry located within the City of Ukiah to the wastewater treatment plant.

The majority of our wastewater runs by gravity through a series of wastewater pipes to the Plant. The remainder of the wastewater, due to elevations that will not allow for gravity flow, must be lifted (pumped) to a location through force (pressurized) mains in the wastewater system that will allow the wastewater to return to a gravity wastewater main.

The Waste Water Treatment Plant underwent a three year, \$56.5M improvement project that was completed in 2009. This plant will insure continued compliance with permit requirements and meet future demand growth.

Maintenance and Operations

The recycled water and wastewater system operators are responsible for nearly 8 miles of recycled water, 93 miles of sewer pipe, and 3 wastewater lift stations. Maintenance includes testing, cleaning, leak repair, operational emergency response, general construction, and more.

PROJECTS & NEWS

Waste Water Treatment Plant Operations

The Waste Water Treatment Plant, operational since 1958, serves the City of Ukiah and the Ukiah Valley Sanitation District. It has a current treatment capacity of 2.8 million gallons per day (MGD) of dry weather flow and 20 MGD of peak wet weather flow. Primary treatment removes floating material, oils and greases, sand and silt and organic solids heavy enough to settle in water. Secondary treatment biologically removes most of the suspended and dissolved organic material.

Treatment steps are grit removal, primary sedimentation, secondary treatment (trickling filters), secondary sedimentation, final clarification (advanced waste water treatment facility), sludge digestion (digesters), disinfection, dechlorination, and effluent discharge to the percolation ponds.

The Waste Water Treatment Plant underwent a three year, \$56.5M improvement project that was completed in 2009. This plant will insure continued compliance with permit requirements and meet future demand growth.

Water and Sewer Field Operations

Water and Sewer personnel are responsible for the operation and maintenance of the City of Ukiah's water distribution system and the City's sewer collection system that includes the Ukiah Valley Sanitation District. Crews respond to service calls for water mains, water services, fire hydrants, and water valves. They also respond to blockage problems concerning the sewer collection system and house service laterals from the main to the sewer line. Collection system facilities are serviced on a routine basis or as necessary.

Residential Services

To start service, residential customers must go to the City of Ukiah office located at 300 Seminary Avenue. The office is open 7:30 a.m. to 5:00 p.m., Monday through Friday. A valid picture I.D. and copy of your title or lease agreement is required. Once service has been started, customers should call Ukiah Waste Solutions at 707-234-6400 for service-related issues and questions.

Garbage Collection

- Cart: Gray lid
- Sizes: 20, 32, 64 or 96 gallon carts
- Frequency: Weekly
- Material: Non-recyclable items accepted by the landfill

Carts need to be placed at curb or road edge at least 3 feet apart by 5:00am on your collection day. Please position carts to open towards the street and keep them free of neighboring or overhead obstacles. All material must fit inside cart and lid must close. Over-filled or contaminated carts may not be picked up and/or may result in extra charges.

Recycling Collection

- Cart: Blue lid

and beverage glass, metal cans, plastic food and beverage containers.

- Prohibited: Plastic bags, Styrofoam, food, liquids, garbage

All recyclables are placed in the same cart. Carts need to be placed at curb or road edge at least 3 feet apart by 5:00am on your collection day. Please position carts to open towards the street and keep them free of neighboring or overhead obstacles. All material must fit inside cart and lid must close. Over-filled or contaminated carts may not be picked up and/or may result in extra charges.

Curious about what goes in your blue cart? Use our handy [UWS Recycling Guide](#)

Mixed Organic Waste Collection

- Cart: Green lid
- Size: 96 gallon cart
- Frequency: Weekly (same day as garbage service)
- Material: Lawn clippings, leaves, plant material, branches under 4" in diameter, small unpainted wood pieces, food scraps, soiled paper and pizza boxes
- Prohibited: Plastics, liquids, glass, hazardous waste, biodegradable and plastic bags

contaminated carts may not be picked up and/or may result in extra charges.

Curious about what goes in your green cart? ^{SEP}Use our handy [UWS Mixed Organic Waste Guide](#)

To start service, residential customers must go to the City of Ukiah office located at 300 Seminary Avenue. The office is open 7:30 a.m. to 5:00 p.m., Monday through Friday. A valid picture I.D. and copy of your title or lease agreement is required. Once service has been started, customers should call Ukiah Waste Solutions at 707-234-6400 for service related issues and questions.

Walk-in Service

Customers may choose to have route collectors walk-in their driveway or backyard instead of rolling carts to the curb or roadway edge. A fee for this service is charged. Please call 707-234-6400 to make arrangements.

Holidays observed (service resumes next day)

- Labor Day
- Thanksgiving
- Christmas Day

During these weeks, if your regular collection days falls on or after the holiday, collection is delayed one day.

For example, Thanksgiving falls on a Thursday. That week, Thursday customers will be collected on Friday, and Friday customers will be collected on Saturday. Normal collection resumes the following week.

Commercial & Multifamily Services

We offer onsite garbage, recycling and organics waste collection within the incorporated city limits of Ukiah, CA. Commercial customers are billed monthly.

Garbage Collection

- Bin: Gray
- Sizes: 2, 3, 4 or 6 cubic yard bins

To start service, commercial customers should call 707-234-6400 to initiate service or visit us at 3515 Taylor Drive in Ukiah.

Recycling Collection

- Bin: Blue
- Size: 2, 3, 4 or 6 cubic yard bins (96 gallon cart available with UWS approval)
- Frequency: Daily, Bi-weekly or Weekly
- Material: Newspaper, household paper, magazines, stationery, catalogs, cardboard, food and beverage glass, metal cans, plastic food and beverage containers (no plastic wrap).
- Billing: Monthly

Curious about what goes in your blue cart?  Use our handy [UWS Commercial Recycling Guide](#)

+ California Recycling Mandate

California Assembly Bill (AB) 341 establishes a 75% recycling goal for California by the year 2020. What does this mean to

Depending on how much waste your commercial business generates, **recycling is mandatory**. At Clearlake Waste Solutions, we are committed to ensuring your compliance with AB 341. Please contact us at 707-234-6400 for a free onsite waste assessment or to schedule

Organics Collection

- Bin: Green
- Sizes: 20 gallon cart or 64 gallon cart
- Frequency: Daily, Bi-weekly or Weekly
- Material: Food scraps, green waste, landscape and pruning waste, non-hazardous food waste and paper waste that has been soiled with food.

+ California Organics Mandate

California Assembly Bill (AB) 1826 requires most businesses – including multifamily dwellings to recycle their organic waste. What does this mean to your business or apartment complex? If you generate 4 or more cubic yards of solid waste per week, or

generates, **organics waste recycling is mandatory**. At Ukiah Waste Solutions, we are committed to ensuring your compliance with AB 1826. Please contact us at 707-234-6400 for a free onsite waste assessment or to schedule service.

Holidays observed (no service on these days)

- New Years Day
- Memorial Day
- Fourth of July
- Labor Day
- Thanksgiving
- Christmas Day

Waste Assessments

At UWS, we are committed to being your local recycling resource. An on-site assessment of your waste stream can identify ways to capture more recycling which may result in a reduction of your garbage bill. Please call us at 707-234-6400 to schedule a free on-site visit.

Special Services

Debris Boxes & Roll Off Bins

For those temporary special projects or large jobs, UWS provides the right bin at the right price for the right material.

- 3 cubic yard debris boxes available (small household cleanups)
- 15, 20 and 30 cubic yard roll-off bins available for remodel, construction, landscape tear-out, and large clean ups
- Discounts offered for debris boxes containing only 'clean recyclables' such as cardboard, glass and appropriate plastics
- Discounts also offered for debris boxes containing segregated recyclables such as wood, green waste, metal, concrete, and asphalt
- When renting roll-off boxes, customers are required to fill out a release form.

Weight restrictions are enforced and a signed agreement is required. Please call us at 707-234-6400 or complete a Request for Services form for more information.

includes all paints, thinners, pesticides, motor oil, fluorescent tubes and electronics such as televisions, monitors, and VCRs.

Please contact the Mendo Recycles at (707) 468-9704 or visit them at www.mendorecycle.org for information on locations and schedules for Hazardous Waste disposal.

For information on the proper disposal of hazardous waste, please contact the Lake County Hotline at (707) 263-1980.

Education & Outreach

UWS is committed to educating residents and providing value tips regarding garbage, recycling and composting.

SEARCH ITEMS TO BE RECYCLED

Want to become more waste wise?

We are available to make presentations to civic organizations and group who would like to learn more about preserving our natural resources and

Want to educate and empower the next generation?

Teaching our children to reduce, reuse and recycle now protects our environment's future. Free presentations are available to schools and groups ranging from kindergarten to 12th grade. Presentations last approximately 45 minutes, and focus on litter, the 3 R's (reduce, reuse & recycle) and proper disposal of household hazardous waste. Students will learn how they can help make their community cleaner and more sustainable. Call us at 707-234-6400 to schedule your presentation.

Want to keep more waste out of the landfills?

Use our recycling guides to divert more material!

UKIAH TRANSFER STATION & RECYCLING CENTER

[MAIN FACILITY](#)

[SPECIAL SERVICES](#)

[AVAILABLE PRODUCTS](#)

[FAQ](#)

The Ukiah Transfer Station and Recycling Center operates as a location for the deposit of municipal solid waste (garbage) as well as a number of other household and commercial materials that are recycled. When loads of mixed waste are received, they are sorted to the maximum extent feasible to extract recyclables and increase diversion from landfilling.

Location:

3151 Taylor Drive
Ukiah, CA 95482

Hours of operation:

Monday – Saturday
8:00 a.m. to 4:00 p.m.

Materials accepted at no charge include:

- Newspaper, cardboard, office paper, magazines, steel cans, food and beverage glass, plastic food and beverage containers
- Rigid plastic containers such as 5 gallon buckets, plastic storage containers, resin patio chairs and laundry baskets
- Scrap metal
- Motor oil and filters
- Automobile and household batteries
- Latex paint

Materials accepted for a fee include:

- Garbage
- Wood and Green Waste
- Construction and Demolition material including concrete, brick, asphalt, drywall, shingles, porcelain toilets and sinks, and foam padding
- Tires
- Furniture (mattresses, box springs, couches and stuffed chairs)
- Appliances such as washers, dryers, refrigerators, freezers, water heaters, air conditioners, dishwashers and microwaves

All loads of 5 cubic yards or more are weighed and charged by the ton. Discounts are available for separated clean loads of wood and green waste as well as segregated loads of construction and demolition material.

Special Services

Buy Back – Recycling (CRV)

Effective September 21, 2019, Buy Back Center operations will be suspended temporarily.

Hazardous & Electronic Waste

Hazardous and electronic waste is strictly prohibited from being landfilled, and must be handled separately from trash and recyclables. This includes all paints, thinners, pesticides, motor oil, fluorescent tubes and electronics such as televisions, monitors, and VCRs.

Certain Hazardous waste and e-Waste are accepted in designated areas of the Transfer station at no charge. These items include:

- Electronics (TVs, computers, stereo equipment, cell phones, etc.)
 - Household and automotive batteries
 - Motor oil and oil filters
 - Antifreeze
-

container to be accepted.)

For other hazardous waste and disposal locations, please contact Mendo Recycles at 707-468-9704 or visit them at www.mendorecycle.org.

We are located at 3151 Taylor Drive in Ukiah.

- + What are your operating hours?

We are open Monday through Saturday from 8:00pm – 4:00pm.

- + Do you accept recyclables?

Yes! We accept the following recyclable material at no charge:

-
- Rigid plastic containers such as 5 gallon buckets, plastic storage containers, resin patio chairs and laundry baskets
 - Scrap metal
 - Motor oil and filters
 - Automobile and household batteries
 - Consumer electronics (televisions, computers, computer monitors, cell phones, printers, stereos and VCRs)
 - Small household appliances (toasters, blenders, mixers, etc.)
 - Appliances (washers, dryers, refrigerators, freezers, water heaters, air conditioners, dishwashers and stoves). A fee for Freon removal may apply.
 - Latex & Oil based paint

+ Are you a buy-back center? Do you pay for recyclables?

Effective September 21, 2019, Buy Back Center operations will be suspended temporarily.

+ Do you accept e-Waste?

+ Do you accept batteries or motor oil?

Yes! The following special and hazardous materials are accepted in designated areas at no charge:

- Household and automotive batteries
- Motor oil and oil filters
- Antifreeze
- Home generated sharps (Syringes and hypodermic needles must be properly packaged and sealed in an approved, puncture-proof container to be accepted)

+ Do you accept garbage?

Yes! We accept garbage for a fee.

+ Do you accept green or wood waste?

Yes! We accept green or wood waste for a fee.

Yes! We accept construction materials for a fee.

+ Do you accept tires?

Yes! We accept tires for a fee.

+ Do you accept furniture including mattresses?

Yes! We accept furniture for a fee.

+ Do you accept medical waste?

We only accept home-generated sharps. Syringes and hypodermic needles must be properly packaged and sealed in an approved, puncture-proof container to be accepted.

+ What payment methods do you accept?

We accept cash, money orders and credit/debit cards (Visa, Mastercard, Discover and American Express are accepted).

No, not at this location. However, we operate Iri County Scrap Metals located at 3515 Taylor Drive which is just down the street from the Ukiah Transfer Station. Tri County Scrap Metals buys a variety of metals including:

- Copper
- Brass
- Aluminum
- Radiators
- Insulated and clean wire
- Stainless steel
- Lead

Our facility operates in compliance with scrap metal regulations of the State of California. Customers will need to show proper identification before purchases can be made.

For more information please visit [TCS Metals](#).

+ Do you sell compost or landscape material?

We offer sustainable recycled products for your home and business. Stop by and shop for your next project.

Landscape material.

From arbor mulch to redwood chips, we have a variety of recycled landscape materials for your use. Learn more about Mendocino Earth products [here](#).

[Click here for a current green material price list.](#)

Products may be purchased in bulk or by the bag. Payment can be made by cash, debit card or credit card (Visa, Mastercard, Discover and American Express are accepted). Delivery is available, please call 707-234-6400 for more information.

Construction material.

Class II recycled aggregate base rock is available for purchase by the ton. Please call 707-234-6400 or [click here for more information](#).

About

[Home](#) > [About](#)

The Department's Core Values:

- Safety
- Professionalism
- Community Service

Our Goals:

- Reduce Crime and the Fear of Crime
- Improve Quality of Life in Our Neighborhoods
- Enhance Community and Police Partnerships
- Develop Personnel
- Continued Accountability

[About Ukiah PD](#)

The Ukiah Police Department is a professional organization comprised of dedicated, well-trained officers and staff who are committed to work in partnership with the community to provide public safety to the residents and visitors of Ukiah. Our officers serve by patrolling the City and by responding to calls for police service, performing crime prevention activities, conducting investigations, promoting traffic safety, and apprehending offenders. We are responsible for providing general public safety and public order, and we strive to make a positive difference in the quality of life of our community.

The department is organized into three divisions which are overseen by the Police Captain who is second-in command. The Operations and Administrative Divisions are commanded by Lieutenants, and the Communications and Records Division is supervised by a civilian manager.

Our Communications Center handles all 9-1-1 and non-emergency calls for the City of Ukiah and City of Fort Bragg Police Departments, provides after-hours dispatching services for Electric, Water, Wastewater and other City of Ukiah services, and makes emergency notifications to the community.

The Police Department has continued to maintain and build its relationships with community and county agencies along with various supportive service providers. We have sustained our memberships on the Continuum of Care Board, RCS Homeless Services Community Center, Ford Street Project, Mendocino County Youth Project, and the Boys and Girls Club. We firmly believe these community engagements and partnerships are key in reducing crime in our neighborhoods and addressing community concerns. We have furthered our partnership with Mendocino County's Whole Person Care program to establish a pilot Homeless Outreach Team and continue to develop this program.

Emergency Services

Adventist Health Ukiah Valley offers 24-hour emergency services. Whenever illness or injury strikes, you can count on us for fast and professional care.

Opened in October 2018, our 14,700-square foot ED has 19 private treatment rooms and two trauma rooms equipped like mini-operating rooms. Patient flow has been carefully designed so patients brought in by ambulance or helicopter are received through a separate entrance from the public walk-in and drop-off entrance.

For patients who require hospitalization in the ICU, eight critical care rooms are equipped with state-of-the-art technology, natural lighting, and accommodations for loved ones at the bedside. Each ICU room is also equipped with its own temperature control systems to provide for individual control of temperature for the comfort of our patients.

It Starts with a Great ED Team.

Some would say there is a unique spirit that you can sense from the physicians, nurses and staff that come together to provide 5-star care for those we serve.

Private Treatment Rooms.

Our new Emergency Department includes 19 private treatment rooms, including rooms for special types of care such as assessment and triage, psychiatric care, gynecological care, negative pressure rooms for highly infectious patients.

Two State-of-the-Art Trauma Rooms.

If you are in need of a procedure, you can put your mind at ease and be comforted to know that we have two trauma rooms equipped like mini operating rooms.

Convenient Helipad.

When an emergency happens, it's reassuring to know patients from all over can access high quality care right here at Adventist Health Ukiah Valley.

ABOUT US >

Our Story

At MCHC, we are defined by three things: first, our commitment to providing quality care with compassion; second, our dedication to solving local problems through collaboration with expert partners; and third, our unceasing pursuit of innovation.

These goals make our centers vital places to learn and grow--and to fulfill our mission with pride.

Founded in 1992 by the late Linnea Hunter, we opened our first center with only 13 employees. Today, we are 342 strong and we provide services at four health centers in Mendocino and Lake Counties.

Although we have grown and evolved over the years, we remain committed to the idea that healthcare is a right for all people. We throw our doors wide open to everyone in the communities we serve as we provide a full menu of services that support a whole-person approach to healthcare.

Consolidated Fire Services

Fire safety services are an important part of our community but they require sizable investments in equipment and personnel. Currently the City of Ukiah Fire Department is working with the Ukiah Valley Fire District in an effort to consolidate overhead for the two organizations while maintaining comprehensive coverage for both the City and surrounding valley.

The goal for this cooperative effort is to evolve into a governing and financial model providing for the two departments to work as one. The two groups working together are now referred to as the [Ukiah Valley Fire Authority \(UVFA\)](#).

More details of the project can be found below.

- [Citygate Analysis of Consolidated Fire Services Arrangements, March 10, 2015](#)

Project Synopsis as of April 2015

In an effort to make fire service for the Ukiah Valley as efficient as possible, two local agencies, the City of Ukiah and the Ukiah Valley Fire Department, have been exploring the possibility of combining efforts as they once did, about 20 years ago. After all, both agencies have the same goals—to protect—the same general jurisdiction. On major calls, both agencies respond and support each other through what is referred to as an auto aid agreement. It seems to make sense to eliminate duplications where possible.

What's Been Done to Date

- The City and District entered a two–year interim operating agreement to create a single administration and combined fire department, known informally as the Ukiah Valley Fire Authority. This agreement was extended to June 30, 2016 at the June 3, 2015 City Council meeting.
- Each agency has retained its own personnel and equipment ownership; a Fire Chief is shared, as are two coordinated fire stations serving the City and the District. All employees are supervised by the Fire Chief, and the City has added money to the District's budget to equalize pay rates.

Prior to entering into the interim agreement, both the City and District acknowledged that some form of contract and/or joint powers agreement (JPA) would need to be devised for a long–term relationship between the two agencies. One of the options explored was formation of a single fire district including the territory of the Ukiah Valley Fire District and City of Ukiah combined.

The Findings after One Year

At a joint meeting of the Ukiah City Council and Ukiah Valley Fire District Board held March 10, findings from the study exploring the single district option indicated that this option would not be possible, due to a number of factors. The presentation can be found on the City of Ukiah website if you would like to see it firsthand.

- The Local Area Formation Commission (LAFCO), which authorizes boundary changes and annexations, must approve of the formation of a single district; the report revealed that neither the City nor the District could meet LAFCO requirements for a single district.
- Currently, the District's revenue sources do not appear adequate to meet future cost increases for services. Neither partner is in the position to support the other, as the study showed. The City is not in a position to allocate a significantly larger share of its general fund to make up for shortfalls in revenue from the District. The City of Ukiah has struggled to balance its general fund for the last seven years. It may well face significant additional deficits in the future. Substantial general fund cuts have been made since 2008, including permanent wage cuts for all employees of the city.

- There are major costs associated with the retirement plans for the agencies if they are merged.

Looking Forward

The independent analysis of the agencies reveals that, for now, the best approach is for the employees to remain on the payroll of their current employer rather than being employed by a fully merged JPA.

For a successful merger, both the City and the District must have equal long-term fiscal stability, and agree upon both governing and contract methods that will provide for a sustainable relationship. The report included measurements and options that will be discussed as the two groups continue to work together. Each agency has selected an Ad/Hoc committee to work on these issues beginning April of 2015.
