**MENDOCINO COUNTY
AIR QUALITY MANAGEMENT DISTRICT**

**ASBESTOS NOTIFICATION FORM
FOR DEMOLITION AND RENOVATION**

INSTRUCTIONS

In accordance with the provisions of the Code of Federal Regulations, 40 CFR 61 subpart M for asbestos, anyone conducting a demolition or renovation project must thoroughly inspect the affected facility or portion of the facility for the presence of asbestos, including projects without Asbestos Containing Material (ACM) and provide written notification of the project to the Air Quality Management District. The notification requirements apply to all commercial buildings, government buildings, schools, multi-family dwellings and single family dwellings and other structures.

Demolition or renovation activities involving at least 160 square feet (80 linear meters or 260 linear feet) of regulated asbestos-containing materials (RACM) require abatement as well as notification. These amounts are known as “threshold” amounts.

For all demolition or renovation projects, fill out the form as completely as possible, including:

- Section I: Type of Notification,
- Section II: Building description,
- Section III: Owner Information,
- Section IV Asbestos Information if Present,
- Section V: Demolition or General Contractor information if they are being used on this project,
- Section VI: Asbestos Consultant/Surveyor Information,
- Section VII. Waste Transporter Information, and
- Section VIII: Disposal Site Information

Should the structure contain “threshold” amounts of asbestos materials that must be abated prior to the demolition or renovation, fill out the Notification Form as completely as possible and submit the Notification and any related documents to the District for approval at least **10 days prior** to any abatement activity.

If your project is below the “threshold” amounts or a Single family dwelling, complete items I through III, sign and date the bottom of the Notification Form and submit it to the District for approval.

Note: All burned structures require consultation with the Air Quality Management District.

If the demolition is being ordered by a government agency, please provide a copy of the Demolition Order. For emergency renovations or demolitions please provide any documentation and describe the project. For specifically-defined "Emergency" conditions, the 10 working day period may be waived.

Fees associated with Asbestos Notification for Demolition and Renovation are attached to this form.

Please notify the District if the job is postponed or cancelled or if there are any revisions, if you have any questions or need further assistance.

In addition to the requirements of 40 CFR 61 subpart M, the California Health & Safety Code, Section 19827.5 requires written approval from the Mendocino County Air Quality Management District prior to the issuance of any demolition or renovation permit. CH&SC, Section 19827.5. states: ...”A demolition permit shall not be issued by any city, county...or state or local agency which is authorized to issue demolition permits...except upon the receipt from the permit applicant of a copy of each written asbestos notification regarding the building that has been required to be submitted to the US EPA or to a designated state agency...pursuant to Part 61 of Title 40 of the Code of Federal Regulations...”

Please note: Contact your California Certified Asbestos Consultant or Abatement Contractor for more information about removing asbestos safely.

**MENDOCINO COUNTY
AIR QUALITY MANAGEMENT DISTRICT
ASBESTOS NOTIFICATION FORM
FOR DEMOLITION AND RENOVATION
FEE SCHEDULE**

**Mendocino County Air Quality Management District
Regulation 1, Rule 1-310, Fees**

**SCHEDULE 8
ASBESTOS OPERATIONS FEE SCHEDULE**

Anyone conducting a demolition or renovation project subject to the provisions of Title 40 of the Code of Federal Regulations, Part 61, Subpart M for asbestos and required to submit a written notification of the project to the District shall pay to the District the following fee:

Asbestos operations other than single-family residential dwellings of less than five units.

Less than 100 lineal feet or less than 100 square feet	\$ 35.00
100 to 200 square feet or 100 to 300 lineal feet	\$ 65.00
200 to 500 square feet or 300 to 600 lineal feet	\$130.00
500 to 2,000 square feet or 600 to 2,400 lineal feet	\$200.00
2,000 to 20,000 square feet or 2,400 to 20,000 lineal feet	\$325.00
greater than 20,000 square feet or 20,000 lineal feet	\$650.00

If, upon inspection or in the course of a demolition or renovation project, it is discovered that the project properly belongs in a higher fee category than was initially determined, the owner or operator shall pay the balance of the fee for the higher category.

The appropriate fees listed above shall accompany the notification form. Failure to pay the appropriate fee at the time of notification form will be considered a failure to notify. In such case the owner or operator could be subject to significant penalties pursuant to federal law and regulation.

Any demolition or renovation project requiring an inspection by the Air Quality Management District shall pay an additional fee to the District for the actual cost of the inspection as determined by the Air Pollution Control Officer in accordance with Rule 1-330, Technical Services Fees.

Schedule 8 is not subject to annual CPI factor adjustments.
