	<p><u>Sensitive Species Habitat Questionnaire (SSHQ)</u>, submit a completed sensitive species habitat questionnaire, along with the following supplemental information, if applicable.</p> <ul style="list-style-type: none"> • <u>SSHQ Generator / Machinery Noise Management Plan</u>, if the applicant will be utilizing a generator to support the cultivation operations, a generator noise plan must be submitted. Noise generated on any portion of the project site shall not exceed 50 decibels when measured from 100 feet of the generator or machinery while running. This includes but is not limited to projects using a generator for any purpose, motorized trimming machines, fans, ventilation systems, and other machinery. The management plan shall include information on containment structures, and a plan demonstrating that the generator or other machinery would not generate, or have the potential to generate noise exceeding the above limits. • <u>SSHQ Artificial Light Management Plan</u>, if the applicant will be using outdoor security lighting, artificial lighting for propagation and/or artificial lighting for cultivation, an artificial light management plan must be submitted. The Artificial Light Management Plan must explain what actions the applicant will take to protect wildlife and comply with the County ordinance, all lights used for the indoor or mixed light cultivation of cannabis shall be fully contained within structures or otherwise shielded to fully contain any light or glare involved in the cultivation process. For security lighting, explain what steps the applicant has taken to ensure the security lighting will not interfere with nocturnal wildlife. • <u>SSHQ Bull Frog Management Plan</u>, if the applicant has a pond on the property where the cultivation will be occurring, a bull frog management plan must be submitted. For a project with an existing or proposed pond of any kind (on- or off-stream, including rainwater catchment), the applicant shall provide a bullfrog monitoring and management plan that describes the implementation of the plan. Projects proposing new ponds, or where a pond has been constructed within the past five years, are subject to referral to CDFW. • <u>SSHQ Notice of Violations</u>, if the applicant has received a notice of violation from a state licensing authority, local agency, or state agency, the notice of violation(s) must be submitted. <p>Required pursuant to Sec. 10A.17.100 (A)(2)</p>
