To whom it may concern,

I believe that the town of Mendocino should continue to adhere to the current rules and regulations that are in place. My family has owned property in Mendocino since 1972. Over the last 52 years there has been significant growth in the tourism industry.

While Mendocino has grown, it has retained its beauty and charm. Our town is now on the national registry of historical places and attracts many tourists. I, along with many others, have a vacation rental in town that does very well.

The historical review board of Mendocino has been vitally important in the review process for both remodels and new structures. The Planning Department should continue to provide detailed plans for both the preservation of older buildings and the building of new structures.

Respectfully,
Virginia Pier
