To: Mendocino County Planning Commission

I am a resident of Albion and attended one of the public presentations for the proposed new fire station facilities. I believe these are necessary for the district to provide state of the art fire protection and medical services to our changing community. With climate change the threat of wildfire is increasing with each passing year, even in the coastal zone. We have a duty not only to protect our property, but to preserve the significant beauty of this area. Therefore I absolutely agree that this CDP should be approved.

Sincerely,

Victor Simon  
32600 Navarro Ridge Road,  
Albion, CA
