Dear Ms. Lindstedt, Chief Rees, Members of the ALRFPD Board,

Thank you for your letter of May 2 addressing concerns expressed by members of the Albion Mutual Water Company regarding projected water usage for the proposed fire station facility in Albion.

We understand the projected water usage supplied by AMWC will be approximately the usage of a two bedroom home.

We understand that the proposed water storage tanks will be static, underground, and that they will not be connected to AMWC.

We appreciate your response to our concerns and thank you for your service to our community.

Cordially,
