Dear Commissioners,

This is in regard to allowing camping in residential neighborhoods. Although I recognize the need for expanded access to our coast, there are options available that would not tax the fragile water systems and roads in residential neighborhoods. My neighborhood, for example, is not far from Mckerricher State Park. There is ample land in and around already established campgrounds that could be used to expand camping. Our neighborhood could not safely accommodate increased traffic and water use.

I urge you to explore expanding coastal access in already established public areas.

Thank you for your consideration,

Andrea Parker
