Dear commissioners and board members,

I'm writing in support of amending the inland zoning ordinance for low intensity camping. I feel it is important for appropriately zoned properties to allow for usage that would benefit local communities and economies. With the challenges of agriculture in our county, this allows for supplemental income for farmers and ranchers.

With a thoughtful and pragmatic consideration of impacts I think it would be reasonable to implement a straightforward ordinance to protect the environment, public interface and neighborhoods adjoining participating owners.

Thank you for your consideration and valuation of agrarian community members,

Patrick Cordrey
