Mendocino County Public Records

Documents have been released for record request #24-747 along with the following message:

Code Enforcement has records that it identified as responsive to your request. These records are being released to you now though the Next Request platform. Please note that the County has redacted the portions of these records to the extent that are exempt from disclosure pursuant to the following:

Gov. Code § 7297.700. Personnel, medical or similar files, or portions thereof which would constitute an unwarranted invasion of personal privacy, including records that reveal personal information such as gate codes. See also the California Constitution, Art. I, Sec. I, regarding the right to Privacy.
Gov. Code § 7927.705. Records, the disclosure of which is

exempted or prohibited pursuant to federal or state law, including, but not limited to, provisions of the Evidence Code relating to privilege. Records disclosing information that would reveal the identity of an informant are exempt pursuant to this section and Evidence Code section 1041.

Gov. Code § 7922.000. Certain records, or portions thereof, may be withheld if the public interest in not disclosing outweighs the public interest in disclosing. In this case, not disclosing certain portions of records outweighs the public interest in disclosure, including records containing personal information and records containing identifying information about informants. Disclosure of such records to the public does little to inform the public about the conduct of the people's business, while withholding such records avoids potential retaliation against informants, avoids a potential chilling effect that disclosing such information might have on the willingness of people to become informants, avoids a potential chilling effect on the exchange of information that assists the County in addressing potential code violations, and encourages the exchange of information that assists the County in addressing and resolving potential Code violations.
