I am opposed to allowing low density camping in residential areas. This is nearly impossible to police. The result of this will be a wide distribution throughout the county of bums; degenerates; riff - raff; undesirables of every description; and some serious criminal types. In addition, this will result in sanitation issues and spread of diseases. Likely there will be more fires started either by accident or on purpose. A couple of years ago some degenerate specimen started a fire near Calpella that burned many houses.

There are already enough undesirables and unproductive types in our county and we don't need any more.

I am a property owner and taxpayer in this county.

Sincerely,

Michael R. Ross
