**SCOPE OF WORK**

County of Mendocino Local Jurisdiction Assistance Grant Program

Executive Summary

The County of Mendocino Cannabis Department (“MCD”) issues local authorization via a local regulatory structure that will operate in conformance with State licensing requirements for commercial cultivation and nursery operations of cannabis in the unincorporated area of the County. The Mendocino Cannabis Cultivation Regulation (“MCCR”) is comprised of two complimentary chapters of the Mendocino County Code of Ordinances (“MCC”). The Mendocino Cannabis Cultivation Ordinance is found in MCC Sec. 10A.17<sup>1</sup> and the Cannabis Cultivation Sites chapter found in the Mendocino County Zoning Code under MCC Ch. 20.242<sup>2</sup>.

The Mendocino County Treasurer Tax Collector (“TTC”) issues a revocable, limited-term grant of permission to operate a cannabis processing, manufacturing, testing, retailing/dispensing, distributing, and/ or microbusiness within the County via issuance of a Cannabis Facility Business License (“CFBL”). The governing Code Section for CFBL’s can be found in MCC Ch. 6.36<sup>3</sup>.

Through the CFBL application process, the Mendocino County Planning and Building Services Department (“PBS”) regulates the processing, manufacturing, testing, dispensing, retailing, and distributing of cannabis within the unincorporated areas of Mendocino County. The Cannabis Facilities Code (“CFC”) established a licensing pathway for all non-cultivation aspects of the supply chain and can be found in MCC Sec. 20.243<sup>4</sup>.

This amended grant application will outline how the grant funds will be used going forward to support both the MCCR and the CFC in transitioning state provisional licenses to annual licenses. The primary objective is to aid Mendocino cultivators with provisional licenses in completing California Environmental Quality Act (“CEQA”) compliance requirements necessary to achieve annual licensure with a secondary objective of expeditiously reviewing provisional licensee local requirements. With these objectives in mind, MCD will use the remaining balance of funds for direct grant opportunities included herein available to all commercial cannabis applicants and license holders operating within the unincorporated area of Mendocino County. These grant opportunities will further support the transition of provisional licenses to annual licenses by supporting the environmental compliance required to obtain an annual license, such as preparation of CEQA documents and implementation of mitigation measures.

Finally, it is the intention of the County to transfer the regulatory and CFBL application and permitting responsibilities of PBS to MCD in Q3 or Q4 of the 2024-2025 fiscal year.

## Program Description

To address the environmental impacts associated with commercial cannabis cultivation in the County of Mendocino, a CEQA compliant initial study was prepared for the MCCR. Based on the recommendations of the initial study, the Mendocino County Board of Supervisors (“BOS”) adopted a Mitigated Negative Declaration<sup>5</sup> (“MND”) on March 21, 2017.

On March 14, 2023, the BOS directed staff to prepare a new environmental document and ordinance revision to streamline the requirement for issuance of a local license for cannabis cultivation while retaining all substantive legal restrictions and environmental protection measures for state licensed operators. The new environmental document is now an Environmental Impact Report (“EIR”) and shall supplement the MND.

On May 23, 2023, the BOS adopted amendments to MCC 10A.17 and 20. 242. The revised, or “streamlined”, ordinance moved the permit-based regulatory structure for cultivation and nursery operations into a Mendocino County Cannabis Cultivation Business License (“CCBL”). CCBLs are now issued to persons cultivating cannabis in the unincorporated area of Mendocino County pursuant to the regulations in MCCR.

On July 6, 2023, the DCC announced they will serve as the lead agency under CEQA for cultivation licenses in Mendocino County. DCC’s work is supported by a contractor, Ascent Environmental, who will conduct the EIR. Most recently, MCC 10A.17 was further streamlined to extend the renewal process for CCBLs from an annual renewal to a 5-year renewal. The primary objective of the MCCR is to allow the commercial cultivation of cannabis in locations that are consistent with the intent of the base zoning district, and to help ensure that its cultivation and related activities will not create adverse impacts to the public health, safety, and welfare of the residents of the County.

### Non-Cultivation Cannabis Facilities (CFBL)

All non-cultivation cannabis facilities in the County of Mendocino require, at minimum, issuance of a CFBL. These facilities may not be required by the local jurisdiction to go through an environmental review because it is a ministerial process and is exempt from the requirements of the CEQA pursuant to Public Resource Code Section 21080(b)(1). Additionally, ministerial actions, such as the review and approval of a cannabis facilities business license, are considered a Statutory Exemption under California Code of Regulations Section 15268(b).

The CFBL application is reviewed by PBS and the Mendocino County Public Health Division of Environmental Health to ensure compliance with all land use, zoning, building code, and environmental health regulations.

<sup>7</sup><https://www.mendocinocounty.org/home/showpublisheddocument/54679/638060247427600000>

<sup>8</sup><https://www.mendocinocounty.org/government/cannabis-cultivation/sensitive-species-habitat-review>

During the review, the Planning Division determines if any additional permits are required beyond the CFBL. If a discretionary Land Use Permit (Administrative Permit, Minor Use Permit, Major Use Permit) is required, the CFBL is placed on hold and the discretionary Land Use Permit must be obtained. During this process, the CEQA compliance measures are identified. Should no discretionary permit be required, the Planning Division awaits approvals from all three local division agencies. Once all approved, the Planning Division informs the TTC that the application is approved and ready for issuance.

### ***Administrative Permits***

Cannabis facilities that require an Administrative Permit, in addition to the CFBL, undergo an environmental review after the referral period to Responsible Agencies for comment, and prior to the writing of a project staff report reviewed by the Zoning Administrator. During the environmental review process, the project planner analyzes the proposed cannabis facility to determine what level of environmental review is appropriate for the project. This review entails determining if the project can be considered Categorically Exempt from the requirements of CEQA or if an Initial Study needs to be conducted. If a project is found to fall under a Categorical Exemption, the project planner prepares a Notice of Exemption and files the document with the Mendocino County Clerk. Common exemptions for cannabis facilities include, but are not limited to, Class 1 (Existing Facilities), Class 2 (Replacement or Reconstruction), Class 3 (New Construction or Conversion of Small Structures), and Class 11 (Accessory Structures).

If a cannabis facility cannot be considered under a Categorical Exemption, the project planner completes an initial study for the proposed project. Information to conduct the Initial Study includes the submitted application materials, additional surveys, internal Department mapping information, and other sources such as the General Plan or items found during project planner research. Additional survey may be required depending on the level of impacts the proposed project may incur. The Initial Study helps to determine if a Negative Declaration, Mitigated Negative Declaration, or Environmental Impact Report (“EIR”) is to be prepared. If an Initial Study determines a Negative Declaration or Mitigated Negative Declaration can be adopted, then a Notice of Determination (“NOD”) is prepared. The filing of the NOD occurs after any action taken by the appropriate hearing body (Zoning Administrator) and includes the California Department of Fish & Wildlife filing fee.

### ***Minor Use Permits***

Cannabis facilities that require a Minor Use Permit, in addition to the CFBL, undergo an environmental review after the referral period to Responsible Agencies for comment, and prior to the writing of a project staff report and public hearing with the Zoning Administrator. During the environmental review process, the project planner analyzes the proposed cannabis facility to determine what level of environmental review is appropriate for the project. This review entails determining if the project can be considered Categorically Exempt from the requirements of CEQA or if an Initial Study needs to be conducted. If a project is found to fall under a Categorical Exemption, the project planner prepares a Notice of Exemption and files the document with the Mendocino County Clerk. Common exemptions for cannabis facilities include, but are not limited to, Class 1 (Existing Facilities), Class 2 (Replacement or Reconstruction), Class 3 (New Construction or Conversion of Small Structures), and Class 11 (Accessory Structures).

If a cannabis facility cannot be considered under a Categorical Exemption, the project planner completes an initial study for the proposed project. Information to conduct the Initial Study includes the submitted application materials, additional surveys, internal Department mapping information, and other sources such as the General Plan or items found during project planner research. Additional survey may be required depending on the level of impacts the proposed project may incur. The Initial

Study helps to determine if a Negative Declaration, Mitigated Negative Declaration, or Environmental Impact Report (“EIR”) is to be prepared. If an Initial Study determines a Negative Declaration or Mitigated Negative Declaration can be adopted, then a Notice of Determination (“NOD”) is prepared. The filing of the NOD occurs after any action taken by the appropriate hearing body (Zoning Administrator) and includes the California Department of Fish & Wildlife filing fee.

### **Major Use Permits**

Cannabis facilities that require a Major Use Permit, in addition to the CFBL, undergo an environmental review after the referral period to Responsible Agencies for comment, and prior to the writing of a project staff report and public hearing with the Planning Commission. During the environmental review process, the project planner analyzes the proposed cannabis facility to determine what level of environmental review is appropriate for the project. This review entails determining if the project can be considered Categorically Exempt from the requirements of CEQA or if an Initial Study needs to be conducted. If a project is found to fall under a Categorical Exemption, the project planner prepares a Notice of Exemption and files the document with the Mendocino County Clerk. Common exemptions for cannabis facilities include, but are not limited to, Class 1 (Existing Facilities), Class 2 (Replacement or Reconstruction), Class 3 (New Construction or Conversion of Small Structures), and Class 11 (Accessory Structures).

If a cannabis facility cannot be considered under a Categorical Exemption, the project planner completes an initial study for the proposed project. Information to conduct the Initial Study includes the submitted application materials, additional surveys, internal Department mapping information, and other sources such as the General Plan or items found during project planner research. Additional survey may be required depending on the level of impacts the proposed project may incur. The Initial Study helps to determine if a Negative Declaration, Mitigated Negative Declaration, or Environmental Impact Report (“EIR”) is to be prepared. If an Initial Study determines a Negative Declaration or Mitigated Negative Declaration can be adopted, then a Notice of Determination (“NOD”) is prepared. The filing of the NOD occurs after any action taken by the appropriate hearing body (Planning Commission) and includes the California Department of Fish & Wildlife filing fee.

### **CCBL’s In compliance (Cannabis Cultivation and Nursery Operations)**

Phase One CCBL applications and annual CCBL’s issued pursuant to the MCC 10A.17 are considered “in compliance” and locally authorized if the following MCD status has been applied and compliance requirements are met.

### **CCBL Renewals**

On March 8, 2024, Mendocino County passed a new streamlined ordinance which moves the program from an annual review to a 5-year renew cycle. A renewed CCBL is considered “in compliance” and eligible for local authorization if the following compliance criteria are met, and the CCBL has one of the assigned MCD statuses.

*Compliance Criteria* - All CCBL’s with the status noted below must also meet the following criteria for local authorization to be granted.

*Issued Status* – The CCBL is issued, is valid, and not otherwise expired.

*Notice of Non-Cultivation Status (“NCS”)* - CCBL holders are eligible to submit a NCS instead of a renewal application not more than once in a five-year period. The NCS is valid for no more than 12-

months. MCD staff may provide local authorization to ensure the CCBL Holder is not subject to revocation of a state license during the temporary closure.

*Renewal Under Review* - The CCBL is valid, and a renewal application is under review.

### Phase One CCBL Applications

A Phase One CCBL application is considered “in compliance” and eligible for local authorization if the following compliance criteria are met, and the application has the MCD status “Under Review”.

*Compliance Criteria* - All Phase One CCBL application with the status noted below must also meet the following criteria for local authorization to be granted.

- The application is complete, as determined by MCD, and Under Review by MCD staff,
- The local authorization request is for the same APN(s) associated with the application,
- The local authorization request is for the same physical address associated with the application, and
- The local authorization request is appropriate for the cultivation type(s) associated with the application.

*Under Review* - the status provided to Phase One CCBL applications that have been determined by MCD staff to be complete enough to warrant review.

*Notice of Application Stay (“NAS”)* - Phase One CCBL applicants are eligible to submit a NAS which is a statement of non-cultivation that may last for no more than 12- months. MCD staff may provide local authorization to ensure the applicant is not subject to revocation of a state license during the temporary closure. NAS applications filed after December 31, 2023, will experience a shorter application stay period compared to the standard 12-months to ensure the DCC deadline of December 31, 2024.

### CCBL’s Not in Compliance

There are a number of statuses that may appear in MCD’s weekly workbook, shared with the State, that indicate that the CCBL application or CCBL is “Not in Compliance”. These statuses are as follows.

*Denial* - This status is used for initial and renewal applications and indicates that the application has been denied.

*Canceled* - This status is used for initial applications and annual CCBL’s when the applicant or CCBL Holder is deceased rendering the application or CCBL no longer valid.

*Revoked* - This status is used for annual CCBL’s only and indicates that the County has revoked the CCBL. In this instance the annual CCBL ceases to exist, and there is no opportunity to reinstate the CCBL.

*Expired* - This status is used for CCBL’s that have expired and were not renewed. Failure to renew an annual CCBL within 30-days of the expiration date permanently expires the annual CCBL.

*Sunset Void* - This status may be used for an application or an annual CCBL. Sunset void means that the location where the applicant or CCBL Holder was operating is no longer eligible for the commercial cannabis activity.

*Void* - This status is generally used when MCD staff has started an application in error, or to close the origin site associated with a relocation. There was also a brief period when MCD staff assigned a new numbering system to annual renewals. When this numbering system was discontinued the status on the discontinued CCBL numbers was changed to void. There is no way to delete an established application / CCBL number out of the County's tracking system so CCBL numbering errors are categorized as void.

*Termination* – This status is for CCBL's that have been issued by MCD and are in violation of MCC 10A.17 and are not acting in good faith to abide by the laws related to the CCBL.

#### CFBL's In Compliance (Non-Cultivation Cannabis Operations)

Cannabis facilities that are considered to be "in compliance" have met all the requirements of the local jurisdiction review and have been issued a CFBL by the TTC. The requirements for the local jurisdiction review includes approvals from PBS, including the Planning Division and Building Division, MCAQMD, and the Division of Environmental Health. Each agency conducts a review of the proposed cannabis facility to ensure compliance with their respective program objectives and responsibilities. The TTC considers a cannabis facility "In Compliance" once all applicable local reviewing agencies have approved their component of the proposed project, and a CFBL is issued indicating local authorization.

#### CFBL's Compliance Under Way

Cannabis Facilities that are considered to be "Compliance Under Way" have submitted a complete CFBL Application to TTC. The application has been referred to the appropriate County agencies through the license tracking software known as "TRAKiT" and have made substantial progress towards compliance, which is typically considered approval by two (2) out of the three (3) local division agencies on TRAKiT (Planning Division, Building Division, and Environmental Health Division). The determination of whether a proposed project has made substantial progress towards compliance is at the discretion of PBS though State processes also help to inform PBS determinations.

Note: TRAKiT is the primary license software used by the County of Mendocino. Accela implementation will be limited to MCD as of now.

#### CFBL's Not in Compliance

Cannabis Facilities that are considered to be "Not in Compliance" are those which have submitted a CFBL Application to TTC. The reason for the proposed project to be considered "Not in Compliance" may include:

- Incomplete application,
- No approval by any local division agency (Planning Division, Building Division, and Environmental Health Division); still "Under Review", or
- No substantial progress towards compliance (limited approval by local division agencies); still "Under Review".

Included in the status of "Not in Compliance" are all cannabis facilities that operate within the unincorporated areas of the Mendocino County without a CFBL having been submitted to the TTC.

#### Statement of Needs

MCD Needs (in priority order):

1. Programmatic Environmental Impact Report

- To effectively transition provisional license holders to annual license holders, MCD needs the fastest and broadest level environmental review.
2. Accela Software Phase II Scope of Work and Maintenance and Support Contract
    - MCD went live with the Accela replacement as the County's licensing software on June 1, 2023. The current platform of Accela is functioning but we would like to ensure applicants have a streamlined experience. With Phase II, the Department would like to ensure proper project management, new record type creation, provide updates to batch scripts, provide updates to Custom Fields, changes to the Renewal Record Type, workflow changes for AV and ACA, TTC notifications, a Payment Adapter and implementing the DocuSign Interface into Accela.
    - Additional Accela assistance is included with a post-go-live Maintenance and Support Contract to ensure all workflows are efficient and streamlined for public users.
  3. Additional staff resources
    - MCD is limited in the number of staff and hiring has proven to be challenging. There is a backlog of application and renewal review that must be completed.
  4. Technological Upgrades
    - MCD has identified a number of technological upgrades that would greatly expedite our review and analysis efforts.

## Equity Program

MCD has opened an ongoing equity window application, available on our website, to ensure equity applicants are certified at the local level on an as needed basis. Furthermore, MCD has developed a process within the LJAGP direct grant application to support provisional licensees in the Equity program as they transition to annual licensure. MCD has allocated 25% of Direct Grant funding (\$1.2M) exclusively to verified local or State licensed Equity Operators. The remaining 75% of Direct Grant funding (\$3.6M), will be available for both equity and non-equity applicants and will be processed and distributed in the order they are received.

As a part of our Equity Program, the County has recently adopted new equity criteria. This new criteria was created in an effort to eliminate barriers for those individuals most impacted by the War on Drugs. Furthermore, the new equity criteria is more in line with the DCC criteria and is noted below:

Any individual who has worked in or currently works in the cannabis industry, who has obtained, applied for, or will apply for a cannabis CCBL in Mendocino County, and owns at least 50% of the business and meets one of the following equity criteria:

1. Lived in a place for at least 5 years between 1980 and 2016 that was a California county with drug arrest rates that were higher than the state average drug arrest rates and: The top 25% for unemployment and poverty; you can use the DCC map tool to see if you live in a qualifying area.
2. Any individual who was arrested and/or convicted of a non-violent cannabis-related offense prior to November 8, 2016, or who has a parent, sibling or child who was arrested for or convicted of the sale, possession, use, manufacture or cultivation of cannabis (including as a juvenile) prior to November 8, 2016;
3. Any individual who was personally raided or was subject to asset forfeiture arising from a cannabis-related event;

1. The term “personally raided” shall be defined for the purposes of this program as an individual who was detained or searched, with or without a warrant, by law enforcement officers for the purposes related to illegal cannabis cultivation or possession. A detention or search shall include a search of a person, arrest, or custodial interrogation.
4. Are a person who experienced sexual assault, exploitation, domestic violence, and/or human trafficking while participating in the cannabis industry;
5. Have become homeless or suffered a loss of housing as a result of cannabis enforcement.
6. Your household income is no more than 60% of the area’s median income, or you’re eligible to get financial aid through a program like:
  1. CalFresh
  2. MediCal
  3. CalWORKS
  4. Supplemental security income
  5. Social Security disability

## Goals and Intended Outcomes

Streamlining ordinance changes proposed are intended to assist the Cannabis Department in processing applications, eliminate duplicative reviews that are conducted at the state level, and remove the county track in trace that was never developed. Additional changes include changing the current “permit” title to a Cannabis Cultivation Business License or “CCBL”. These changes are reflective of the department’s continued efforts to streamline application review and renewals. For changes, see attached ordinance changes that will go before the board for adoption.

### **Goal 1: Programmatic EIR & other CEQA documents**

To aid the streamlining and combined efforts of the State and County in transitioning provisional licenses to annual licenses in Mendocino County, the County has contracted with Ascent Environmental to complete a programmatic EIR covering State licensing of cannabis cultivation in Mendocino County, for and under the direction of the DCC.

In addition, Ascent will prepare site-specific environmental documents (which may include, but not limited to, notices of exemption, negative declarations or mitigated negative declarations, or addenda), and assist with the completion of CEQA review in order to allow the DCC to transition provisional licenses to annual licenses in Mendocino County.

**Goal 2: Staff Resources**

MCD has determined that bolstering short term staff resources to help eliminate the backlog of CCBL, CFBL applications, and CCBL, CFBL renewals would be the most efficient means to gain stability.
