---	---	---	--

Zoning designations shown in [brackets] (coastal zone only) indicate 'variable density zones'. Per county code Sec. 3.8-30 in order to be developed to the smaller parcel size, areas indicated on the map as having a variable density zoning classification shall be required to be served by a public water system which utilizes surface waters, and which does not impact upon the ground water resource, or by completion of a hydrological study which supports those greater densities.
